MESSAGE from

THE CHAIRMAN OF THE BOARD OF DIRECTORS

Dear Shareholders, valued Partners and Customers,

Vietnam is entering a period of strong growth with increasing demand for real housing, asset accumulation, and urban development, creating a solid foundation for the long-term development of the real estate market. In this context, Sunshine Group not only aims to adapt flexibly to changing conditions, but also proactively establishes a leading market position based on a strategic land bank and a steadfast commitment to real value.

The year 2025 marks the completion of the “Version 1.0” phase, as the Group concludes its foundation-building journey: accumulating a land bank of tens of thousands of hectares in prime locations, consolidating its governance structure, and enhancing execution capability, with pre-tax profit reaching nearly VND 11,300 billion; total assets exceeding VND 120,000 billion – figures that reflect not only financial growth, but also maturity in long-term strategic thinking.

Entering 2026, Sunshine Group transitions into the “Version 2.0” phase: a phase of stabilization and acceleration. The Group continues to remain steadfast in its core real estate business, with a land bank sufficient for at least the next 10 years of development, a target minimum annual growth of 50%, and a clearly defined portfolio of core commercial products segmented by market tiers. In parallel, the Group is gradually developing 20% of its land bank for service purposes to create stable recurring cash flow and strengthen long-term financial resilience.

Throughout this journey, Sunshine Group remains committed to the philosophy: “Do not sell expectations – Only sell value,” embodied in five core principles: Real Location – Real Quality – Real Living – Real Price – Real Cash Flow. This is not merely a product development orientation, but a long-term commitment to creating real assets capable of sustainable value accumulation and meaningful contribution to society.

Accumulate to break through – that is the spirit Sunshine Group brings into its new phase: not rushing, not compromising core values, but being fully prepared and capable of accelerating strongly when the opportunity arises. On this journey, we would like to express our deepest gratitude to our Shareholders, Partners, and Customers for their trust and companionship with Sunshine Group.

On behalf of the Board of Directors, we wish you good health, prosperity, and success!

Yours sincerely,

Chairman of Board of Directors

Mr. Do Anh Tuan

MILESTONES IN OUR FORMATION AND DEVELOPMENT

Sunshine Group Joint Stock Company, formerly known as Phu Thuong Construction Investment Joint Stock Company, was established according to Enterprise Registration Certificate No. 0106771556 initially issued by Hanoi Department of Planning and Investment on 09 February 2015, with an initial charter capital of VND 6 billion.

From our inception, the Company has primarily operated in the fields of construction, installation and real estate business, gradually participating in the development of housing projects, civil works, and technical infrastructure. Throughout our formation and development, we have continuously expanded our scale of operations, improved our financial capacity, perfected our management system, and affirmed our position in the real estate market.

Through the strategic restructuring in 2025, the Company's charter capital increased from VND 3,000,000,000,000 to VND 8,997,873,080,000, demonstrating a strong development in financial potential. This increase in charter capital has created a solid foundation for the Company to implement large-scale real estate projects, expand our land bank, enhance construction capacity, and promote our sustainable development strategy in the new phase.

Milestones in our formation and development:

2019

In 2019, the Sunshine Riverside project was officially completed and handed over to customers.

As an affiliate of Diamond Westlake Investment Co., Ltd. (the parent company of Sunshine Sky Villa Joint Stock Company – the project's investor), the Company, together with Sunshine Development Joint Stock Company, officially launched the Sunshine Golden River project (Ciputra Urban Area – Nam Thang Long, Hanoi), a high-end apartment project with apartments featuring private gardens, offering a sky villa living experience in Hanoi.

The Company collaborates with Samsung Vina to provide smart home solutions for high-end projects of Sunshine Development Joint Stock Company.

2020

The Company's registered address changed from the 43rd floor, Keangnam building to the 12F, Sunshine Center building, 16 Pham Hung Street, My Dinh 2 Ward, Nam Tu Liem District, Hanoi City, Vietnam (currently 12F, Sunshine Center building, 16 Pham Hung Street, Tu Liem Ward, Hanoi City).

In March 2020, the Company and Sunshine Group Development Joint Stock Company collaborated and officially launched the Sunshine Fintech 4.0 financial and real estate investment model, offering investment products in the Company's high-end real estate projects and distributing smart housing projects through a groundbreaking smart application called Sunshine App, providing maximum convenience for customers.

In July 2020, the Sunshine App received the Special Recognition Award for Innovation, and the Sunshine Riverside project was also honored as one of the most livable projects of 2020 within the framework of the 2020 Real Estate Forum organized by the Business Forum Magazine and the Vietnam Real Estate Association.

2021

On 11 March 2021, the Company invested additional capital in Thien Hai Joint Stock Company, increasing our ownership stake in Thien Hai Joint Stock Company to 7.29% of the charter capital.

On 25 August 2021, the Company successfully offered 50,000,000 shares to the public, increasing our charter capital to VND 3,000,000,000,000.

On 30 August 2021, the Company officially became a public company according to document No. 4986/UBCK-GSDC of the State Securities Commission of Vietnam.

On 31 August 2021, the Company changed our name from Phu Thuong Construction Investment Joint Stock Company to KSFinance Group Joint Stock Company.

It was a significant milestone on 24 September when the Company's shares were officially approved for listing on the Hanoi Stock Exchange. Following this milestone, 06 October 2021 was the first-time trading day, opening the way for the Company's transparent, professional, and sustainable development in the stock market.

2022

On 09 April 2022, the Company successfully held our annual General Meeting of Shareholders, approving several important items.

On 05 May 2022, the Company acquired 65% of the capital contribution of S.I Development Joint Stock Company; therefore, as of 05 May 2022, S.I Development Joint Stock Company became a subsidiary of the Company.

2023

On 27 May 2023, the Company successfully held 2023 Annual General Meeting of Shareholders.

On 31 May 2023, the Company changed name from KSFinance Group Joint Stock Company to Real Tech Group Joint Stock Company.

On 23 June 2023, Sunshine Sky Villa Joint Stock Company became a direct subsidiary of the Company with a 92% ownership and voting stake.

On 23 October 2023, Unicloud Technology Group Joint Stock Company became a subsidiary of the Company with a 78.48% ownership stake and an 84.44% voting stake.

2024

On 27 April 2024, the Company successfully held 2024 Annual General Meeting of Shareholders.

On 07 May 2024, the Company changed name from Real Tech Group Joint Stock Company to Sunshine Group Joint Stock Company.

2025

In September 2025, Sunshine Group officially completed capital increase from VND 3,000,000,000,000 to VND 8,997,873,080,000.

Simultaneously with the capital increase, the Company implemented a comprehensive restructuring program, focusing on a large-scale economic development strategy with an emphasis on accelerating M&A activities with investors and satellite businesses to expand land reserves, increase project implementation capacity, and optimize the value chain.

Notably, the Company completed the issuance of an additional 599,787,308 KSF shares in a public acquisition of shares transferred by Sunshine Homes Development Joint Stock Company. Accordingly, Sunshine Homes became a subsidiary of the Company from 29 September 2025, with an ownership stake and voting rights ratio of 99.96%, officially bringing Sunshine Homes and its subsidiaries into Sunshine Group. This allows Sunshine Group to join the group of leading real estate companies in terms of market capitalization on the Vietnamese stock market.

In 2025, the Company simultaneously accelerated construction progress on projects nationwide, such as Noble Palace Tay Thang Long WorldHotels Residences, Noble Crystal Long Bien WorldHotels Residences, Noble Crystal Tay Ho WorldHotels Residences, Noble Palace Garden, etc. This accelerated project implementation not only affirms the Company's performance after restructuring but also creates a stable supply of products for the market.

The Company continues to be honored with a series of prestigious awards both domestically and internationally, such as: Top 10 "Strong Brands – Pioneering Innovation 2025"; Top 40 "Outstanding Private Enterprises" recognize our remarkable contributions during 40 years of reform; the "Outstanding Asian Enterprise" award presented by Enterprise Asia; and the "Outstanding M&A Strategy Enterprise 2024-2025" award at the Vietnam M&A Forum (organized by the Finance and Investment Newspaper under the patronage of the Ministry of Finance), etc.

2.2. BUSINESS AREA

Sunshine Group Joint Stock Company's business operations are oriented towards expanding nationwide. Currently, the Company is focusing our resources on developing large-scale projects in Hanoi and Ho Chi Minh City – two key real estate markets with the greatest reach and influence in the country.

03

INFORMATION ON THE GOVERNANCE MODEL, BUSINESS ORGANIZATION, AND MANAGEMENT STRUCTURE

3.1. GOVERNANCE MODEL

The Company applies a governance model as stipulated in Point a, Clause 1, Article 137 of the 2020 Enterprise Law as follows: General Meeting of Shareholders, Board of Directors, Board of Supervisors, and General Director.

3.2. MANAGEMENT STRUCTURE

• **General Meeting of Shareholders:** Comprising shareholders with voting rights, is the highest decision-making body of the Company.

• **Board of Directors:** The Board of Directors is the governing body of the Company, possessing full authority to act on behalf of the Company to decide and exercise the rights and obligations of the Company that are not covered by the authority of the General Meeting of Shareholders. Each Director serves a five-year term. The structure and organization of the Board of Directors have also been continuously improved to enhance compliance with the law, strengthen supervisory capacity, and improve operational efficiency.

• **Board of Supervisors:** Elected by the General Meeting of Shareholders, comprising members with relevant expertise and experience. The Board of Supervisors' role is to monitor the accuracy of financial statements, the Company's compliance with the law, and to perform its functions and duties as stipulated by law, the Charter, and the Company's regulations and rules.

• **General Director:** The General Director is responsible for managing the Company's business operations and daily activities, and is selected and appointed by the Board of Directors. The General Director's term of office is 05 years from the date of appointment.

04 DEVELOPMENT ORIENTATION

4.1. THE COMPANY'S KEY OBJECTIVES

On the solid established foundation, the Company focuses on the following key directions:

- **Development orientation:**

The Company aims to become a leading real estate group based on technology, with real estate as its core business, while gradually expanding and perfecting a multi-sector ecosystem encompassing technology, finance, construction, services, and related fields. The Company is committed to a development philosophy based on real value, focusing on creating high-quality products with transparent legal frameworks, meeting real housing needs, and delivering sustainable value to customers and investors.

- **Technology orientation:**

Based on the principle of "prioritizing technology and building a foundation on real value", the Company promotes the application of technology throughout the entire value chain, from project development and business to operation and management, aiming to improve operational efficiency and enhance customer experience. Simultaneously, the Company is gradually investing in research and development, aiming to master core technologies and build smart real estate models in the future.

- **Financial and governance orientation:**

The Company focuses on strengthening its financial capacity, improving governance efficiency and optimizing resources, while enhancing transparency in operations to ensure stable and safe development and increase shareholder value.

- **Sustainable development orientation:**

The Company aims to make a positive contribution to socio-economic development by developing civilized and modern cities, creating jobs, improving the quality of life for the community, and aligning with the sustainable development orientation of the economy.

4.2. MEDIUM AND LONG-TERM DEVELOPMENT STRATEGY

a. Sustainable growth linked to scaling up and improving efficiency

- Sunshine Group remains committed to a sustainable development strategy, ensuring growth goes hand in hand with efficiency, safety, and longevity. In this new phase, the Group continues to expand and perfect its Real Estate – Technology – Finance ecosystem, aiming to become a leading multi-industry economic group.
- The Company focuses on maintaining stable growth, improving revenue quality and operational efficiency; while also promoting M&A activities, prioritizing project development companies and real estate projects with clear legal status, clean land funds, and high potential, thereby rapidly increasing the size of its investment portfolio and expanding its ecosystem. The Company continues to promote the application of technology in its operational areas, enhancing management and operational capabilities, creating a foundation for sustainable growth and flexible adaptation to market fluctuations.

b. Strengthening the management system and optimizing performance

- Restructuring the organization and improving management capacity through streamlining the organizational structure, optimizing human resources, and increasing work efficiency.
- Developing high-quality human resources, ensuring a workforce with strong expertise, innovative thinking, and flexible adaptability.
- Strengthening financial governance, increase transparency in investment activities, optimize cash flow, and enhance capital mobilization capacity.
- Forming corporate culture, motivating employees and strengthening team spirit and long-term commitment to the organization.

c. Development orientation for the real estate sector

- Expanding the investment portfolio, focusing on projects with clean land, strategic locations, solid legal foundations, and high development potential.
- Enhancing project implementation capacity, accelerating progress, ensuring quality, and delivering projects on schedule.
- Optimizing the real estate business model, integrating technology into management, operation, and product development to increase sustainable value for customers and shareholders.

d. Application of technology and expansion of the ecosystem

- Strongly developing the NOBLEX App platform, transforming it into a crucial tool in managing and operating the Sunshine Group ecosystem, while simultaneously providing an optimal customer experience.
- Promoting the application of artificial intelligence (AI) in the fields of finance, real estate, operational management, education and healthcare.
- Continuing digital transformation, optimizing business operations and governance processes, improving efficiency, and reducing operating costs.

4.3. THE COMPANY'S SHORT-TERM AND MEDIUM-TERM SUSTAINABLE DEVELOPMENT GOALS (ENVIRONMENT, SOCIAL, AND COMMUNITY) AND KEY PROGRAMS ARE AS FOLLOWS

Throughout our development journey, Sunshine Group has clearly defined that growth is only truly meaningful when accompanied by a solid governance foundation and substantive operational efficiency. Therefore, the Group does not choose expansion at all costs, but pursues a controlled development strategy, with financial security, operational discipline, and sustainable value as its overarching pillars. This consistent orientation has created stable internal strength, enabling the Group to adapt flexibly to fluctuations and gradually consolidate its position in the market.

From this foundation, the Group's operational and development principles are implemented synchronously as follows:

- **Rapid but sustainable growth:**

The Group pursues high growth rates based on tight risk control, balanced resource allocation, and guaranteed financial efficiency. Every expansion plan undergoes a comprehensive assessment of feasibility, cash flow, and operational capacity to ensure that each step forward is not only rapid but also solid, creating a stable foundation for long-term development.

- **Human-focusing:**

- » Customers: The Group focuses on improving the quality of products, services and overall customer experience.
- » Officers and employees: Building a professional and transparent work environment that fosters skill development and long-term commitment.
- » Community: Emphasizing responsibility towards the community through social welfare activities, aiming for harmonious development between business interests and social interests.

- **Determination of stakeholders:**

In order to concretize its sustainable development orientation, Sunshine Group identifies and systematizes key stakeholders based on the context of the real estate industry and the specific concerns of each group. This is a crucial foundation for the Group to build a policy of cooperation, governance, and harmonious development throughout the entire ecosystem, specifically:

Related parties	Field of interest	Sunshine Group's activities
Customers	* Reasonable price. * Quality and service. * Customer satisfaction level. * Staff's working efficiency and working methods. * Product liability. * Sales policy. * After-sales policy.	* Strictly adhering to legal regulations in both domestic and international markets; maintaining a reasonable and competitive pricing policy, ensuring a balance between customer interests and business interests, etc. * Committed to ensuring the highest quality and service for customers. * Every staff must be attentive, listen with an open mind, and be ready to satisfy the legitimate requests of customers throughout the interaction process. * Showing appreciation to customers through organizing customer conferences, promotional programs and attractive after-sales policies. * Establish a mechanism for resolving customer complaints.
Shareholders and investors	* The Company's business results. * Status and operational efficiency. * Development orientation and strategy. * Risk management. * Information transparency. * Information security.	* Regularly organizing public programs and conferences to give investors a more comprehensive understanding of the Company's operations and development strategy in the coming stages, such as: publishing periodic and extraordinary information on the Company's official website, holding annual and extraordinary general meetings of shareholders, customer conferences, participating in meetings and exchanges with domestic and foreign investors, etc. * Information sharing and disclosure shall be fair, ensuring equal investment opportunities for all investors. * Do not arbitrarily disclose investor or shareholder information without their prior consent or being required by the law.

Employees	* Company's compensation policy. * Opportunities for advancement. * Labor safety. * Work environment. * Co-worker relationships. * Manager-employee relationship.	* The Company makes improvements to its employee compensation and benefits policies on an annual basis. * Develop policies to retain talent. * Implement training and professional development programs for employees. * Establish a company-wide code of conduct to form a strong company culture. * Regularly organize internal activities to create a cohesive and healthy work environment for employees. * Human resource management is based on respect for employees, including respect for their decisions, wishes, aspirations, freedoms, and other legitimate rights.
Community	* The issue of employment * Contribution to the community * Awareness and responsibility towards the overall development of the community. * Direct and indirect impacts of the Company on the environment during its operations	* Committed to prioritizing environmental factors over development, minimizing environmental impact during the implementation and operation of large-scale projects. * Affirm commitment to working with conscience and responsibility to both protect the environment and create growth for society and the country. * Continue to promote and implement charitable programs and activities, and contribute to building a more developed community.
Government	* The Company's compliance with the law. * Difficulties the Company encountered in implementing policies and legal regulations. * General market trends and industry trends. * Conduct investment and business activities in a manner that is responsible towards customers, society and the environment.	* Strictly adhere to all regulations and laws of the Vietnamese government regarding economics, social affairs and the environment. * Fulfill all obligations to pay taxes to the State budget.
Media outlets	* Business results. * The Company's development strategy. * Information accuracy. * Proactiveness in providing information.	* Build good relationships with media outlets, newspapers, and television stations based on the principles of equality, transparency, and legality. * Messages and information provided are accurate, clear, complete, and objective at all times, helping the press obtain accurate information about the Company's operations. * Handle media incidents calmly and constructively, using tactful and appropriate language in response to objections and accusations.
Credit institutions	* The Company's business results. * Status and operational efficiency. * Respect for the interests of all parties. * Safety, health and environment. * Risk management. * Information transparency. * Information security.	* Committed to information transparency and providing timely and comprehensive information. * Develop and implement closely coordinated risk management and financial control plans to create stable and sustainable cash flow, ensuring consistent growth over the years. * Not to disclose confidential information of related parties. * Respect the interests of all parties and ensure the principle of harmonizing interests in cooperation and investment.

05

RISKS

In 2026, Sunshine Group continues to strengthen our risk management system in a proactive and preventative manner. The Group regularly reviews factors that may impact business operations, from market fluctuations and legal policies to financial and operational risks, thereby developing appropriate response scenarios. Strengthening internal controls, monitoring cash flow, managing project progress and standardizing operational processes help the Group maintain stability, mitigate negative impacts and enhance adaptability in a volatile business environment.

Major risks identified:

Type of risk	Response measures
Policy and legal risks	Enhancing the capacity to complete legal procedures for projects, especially those with highest and earliest sales potential. * Intensifying construction and sales activities at key projects with potential to generate quick and stable revenue. * Preparing multiple business plans to have various solutions and most suitable options for each specific situation.
Financial risk	Continuing to prioritize maintaining financial wellness, focusing on tightly managing cash flow, balancing income and expenses, and maintaining liquidity amidst the challenges facing the overall market and the real estate sector.
Risks of compliance with corporate governance laws	Enhancing corporate governance training for the Board of Directors and middle managers, with the participation and/or guidance of Directors.
Market risk	Expanding sales channels, diversifying customer outreach methods, and boosting direct product distribution to end buyers. Focusing on developing projects in prime locations with complete legal documentation to increase liquidity.
Environmental, natural disaster and epidemic risks	Proactive control is achieved through a sustainable development orientation right from the planning and implementation stages of projects. Sunshine Group places special emphasis on developing green spaces, landscapes, and a healthy living environment in our urban areas, aiming to create a green living standard, in harmony with nature, and enhancing adaptability to climate change. Simultaneously, the increased application of technology and digitalization of operational processes helps ensure continuity of operations, minimizing disruptions in situations of natural disasters or epidemics, thereby maintaining stability and safety for the entire system.
Real estate sector risks	 * Closely monitor developments in the real estate market to implement optimal response and control measures. * Continuing to expedite legal procedures for projects. * Focus on developing projects with complete legal documentation. * Developing products that meet buyer needs and focusing on customer groups with real housing needs. Incorporating natural elements, creating differentiation and competitive advantages for the product in order to increase its accessibility to customers and investors. * Diversify funding channels for real estate development projects, focusing on finding low-cost/ reasonable sources of capital. * Strengthening partnerships with banks that offer preferential loan policies and good support for customers purchasing the Company's real estate products.
Media risks	Continuing to listen to feedback and public opinion regarding the Company's business activities and products, identifying crisis signals, and developing solutions for handling media crisis. * Recruiting personnel with appropriate expertise for marketing and communications work, enhancing the effectiveness of preventing and mitigating the Company's communication risks. * Effectively leverage the power of the Company's own online communication tools, notably website, news pages and social media accounts. In addition, the content, visuals and communication approach should be better and more effectively invested.

OPERATIONAL SITUATION DURING THE YEAR

1. Business and production performance
2. Organizational structure and personnel
3. Investment and project implementation status
4. Financial situation
5. Shareholder structure, changes in owner's equity

01 BUSINESS AND PRODUCTION PERFORMANCE

1.1. BUSINESS AND PRODUCTION PERFORMANCE RESULT

Unit: VND billion

Indicator	Year 2024	Year 2025	Increase/ Decrease	Growth rate (%)
Net revenue	2,469.47	20,198.17	17,728.70	717.92
Financial activities income	698.34	1,094.66	396.32	56.75
Cost of goods sold	1,234.66	7,062.26	5,827.60	472.00
Financial activities expenses	634.78	1,455.76	820.99	129.33
Other expenses	6.24	128.31	122.07	1,956.05
Selling expenses	158.20	984.46	826.26	522.29
General & administration expenses	166.51	383.68	217.17	130.43
Corporate income tax	200.56	2,370.35	2,169.79	1,081.87
Profit before tax	974.41	11,294.49	10,320.08	1,059.11
Profit after tax	773.85	8,906.22	8,132.37	1,050.90

Net profit after corporate income tax on the consolidated financial statement for 2025 increased by VND 8,132.37 billion, equivalent to a 1,050.90% increase compared to the previous year, mainly due to the following reasons:

- * Gross profit from sales and services increased by VND 11,901.10 billion, equivalent to a 963.80% increase compared to the previous year; this was mainly due to the handover of the Company's strategic projects, leading to a significant increase in revenue from real estate transfers at our subsidiaries.
- * Financial profit decreased by VND 424.67 billion, due to the lower growth rate of financial income compared to financial expenses:
 - + Financial revenue increased by VND 396.32 billion, corresponding to an increase of 56.75%, mainly due to interest on deposits, lendings, and profits from trading securities sales.
 - + Financial expenses increased by VND 820.99 billion, corresponding to an increase of 129.33%, mainly due to loan interest expenses and costs for business cooperation contracts serving investment in the Company's projects.
- * Selling expenses increased by VND 826.26 billion, equivalent to 522.29%, mainly due to increased interest rate support costs and brokerage commission fees as the Company intensified sales activities at our subsidiaries.
- * General & administration expenses increased by 217.17 billion VND, equivalent to 130.43%, compared to the previous year, mainly due to additional costs related to restructuring activities.
- * Other expenses increased by VND 122.07 billion due to the Company's sponsorships for education, disaster relief and other expenses as actually incurred during the year.

Based on the consolidated financial statements, although some expense items recorded significant increases during the period, the strong increase in gross profit from real estate transfers at subsidiaries played a leading role, thereby increasing the Company's after-tax profit by 1,050.90% compared to the previous year. During the year, the Company implemented a comprehensive restructuring strategy, reorganizing our subsidiary system and focusing resources on key real estate projects. The product portfolio mainly includes housing projects, urban areas, and real estate transfer activities, which have been actively implemented and handed over. Supply during the period came from projects that had completed legal documentation and have been eligible for revenue recognition, creating a crucial foundation for the exceptional growth in business results.

The period of 2024–2025 marked a favorable time for the Company's business performance, with a series of promising projects completed and handed over, resulting in significant revenue during the period. Simultaneously, the real estate market showed signs of recovery, and increased demand positively supported the Company's product sales. The positive business results were clearly reflected in the financial statements, contributing to enhancing the Group's position and positioning the Group as one of the largest real estate companies in terms of scale and market capitalization.

1.2. PERFORMANCE COMPARED TO PLAN

No.	Indicator	Plan of 2025 (VND billion)	Performance 2024 (VND billion)	Performance 2025 (VND billion)	Performance 2025 increase/ decrease compared to 2024	Performance 2025/Plan 2025 (Equivalent to the plan of total revenue 50,000 and profit before tax 8,000)
		(1)	(2)	(3)	(4) = ((3)-(2))/(2)	(5) = (3)/(1)
1	Total revenue	50,000 – 60,000	3,167.81	21,292.83	572.16%	42.59%
2	Profit before tax	8,000 – 12,000	974.41	11,294.49	1,059.11%	141.18%

In 2025, the Company's consolidated total revenue reached VND 21,292.83 billion, equivalent to 42.59% of the year's plan and a 572.16% increase compared to 2024. Profit before tax reached VND 11,294.49 billion, equivalent to 141.18% of the year's plan and a 1,059.11% increase compared to the previous year. This result shows that, although the Company did not meet our revenue target, our operational efficiency and profitability have significantly improved, as evidenced by exceeding the profit target.

The main reason for not meeting revenue targets is the unique nature of the real estate sector, where revenue recognition is heavily dependent on the progress of legal procedures and project handover. During the year, several key projects of the Company were still in the implementation phase and did not yet meet the conditions for revenue recognition according to regulations, thus not fully reflecting the actual scale of operations during the period. In addition, the Company's M&A roadmap is still ongoing for some investments, so some projects did not contribute revenue in 2025.

Although the revenue target has not yet been met, the Group's leadership assesses that the results achieved this year do not fully reflect the growth potential, given that many strategic projects are being implemented and are expected to enter the revenue recognition phase in subsequent periods. The profit before tax exceeding the target is mainly due to the handover of high-margin projects, while the Company continues to effectively control financial costs, selling expenses, and general & administration expenses.

Overall, the 2025 performance reflects a positive growth trend compared to the previous year, while also showing a difference between revenue recognition progress and profitability during the period. This is an important basis for the Group to continue realizing its growth targets in subsequent phases as key projects are completed and put into operation.

02 ORGANIZATIONAL STRUCTURE AND PERSONNEL

2.1. LIST OF BOARD OF MANAGEMENT'S MEMBERS AND OTHER MANAGERIAL OFFICERS

Currently, Sunshine Group's Board of Management and other managerial officers include 01 General Director, 07 Deputy General Director, 01 Chief Accountant, appointed by the Board of Directors for the management, operation, and organization of the Company's business and other activities within their authority.

	Definite-term labor contracts	90
	Indefinite-term labor contracts	67
	Total officers and employees	157

Employee-related policies

Recognizing human resources as a core factor for development, the Company always focuses on building and flexibly adjusting policies to align with the goal of maximizing the benefits for its employees. The policies include salary regulations, allowances, training, and development programs, creating optimal conditions for employees to maximize their capabilities and maintain long-term commitment to the Company.

Working conditions

- For office employees: The standard working hours are 8 hours per day, from Monday to Friday. On Saturday mornings, employees work for 4 hours, with Saturday afternoons and Sundays off.
- For construction site and production unit employees: Working hours and breaks are arranged flexibly according to the specific characteristics of each project, coordinated by the Unit Head to ensure progress. Overtime work must be approved by an authorized leader. Employees working overtime will be arranged to take compensatory leave or receive overtime pay according to current regulations.
- Leave, holidays, and Tet: Employees are entitled to leave according to the Labor Code and receive full salary on public holidays and Tet.

Salary policy

Sunshine Group ensures employees' salary rights, adhering to the principles agreed upon in the Labor Contract, directly linked to productivity, work quality, and efficiency. The salary level is not lower than the State's minimum wage regulations and includes:

- 1. Basic salary:** This is the salary paid based on the job grade assigned to the employee, within the Group's salary framework registered with the Department of Labor, Invalids, and Social Affairs. The basic salary serves as the basis for fulfilling obligations to the State, such as Social Insurance, Health Insurance, Unemployment Insurance, Occupational Accident Insurance, and Trade Union contributions.
- 2. Negotiated salary:** Determined by the Company's Leadership based on expertise, experience, job nature, work performance, contribution level, and individual development potential.

Bonus and welfare policy

Sunshine Group always recognizes and appreciates the contributions of our employees through a timely reward policy, consistent with the results and efficiency of production and business activities. In addition to achievement-based bonuses, the Company organizes engagement activities such as team-building events and gratitude programs during holidays to foster motivation and strengthen team spirit.

The Company is committed to fully implementing health insurance and social insurance policies as required by the State while also introducing practical support policies. Sunshine Group consistently cares about employees' well-being, offering financial assistance, visits, and support to employees' families during unforeseen difficulties, ensuring long-term unity and commitment within the enterprise.

03

INVESTMENT AND PROJECT IMPLEMENTATION STATUS

3.1. MAJOR INVESTMENTS

01

PROJECT NAME: NOBLE PALACE TAY THANG LONG WORLDHOTELS RESIDENCES

Project location:

- O Dien Commune, Hanoi City

Project scale:

- ~ 71 ha

Project progress:

- ✓ Construction is underway simultaneously across all 4 subdivisions. Subdivision D – Victory has been completed 100% of its roof structure and is currently in the completion stages. Construction is also progressing rapidly across the remaining 3 subdivisions, with over 500 units already topped out. The transportation infrastructure and internal parks have also been gradually taking shape.
- ✓ Expected handover: From 2nd Quarter 2026.

02

PROJECT NAME: NOBLE CRYSTAL LONG BIEN WORLDHOTELS RESIDENCES

Project location:

- Phuc Loi Ward, Hanoi City

Project scale:

- 28,060 m²

Project progress:

- ✓ Basement construction is complete; work has reached the 4th and 5th floor slab.
- ✓ Expected handover: 4th Quarter 2026.

03

PROJECT NAME: NOBLE PALACE GARDEN

- Project location:** • Dan Phuong Commune, Hanoi City
- Project scale:** • ~ 45 ha
- Project progress:** ✓ Construction is in progress.
✓ Expected handover: 4th Quarter 2026.

04

PROJECT NAME: NOBLE CRYSTAL TAY HO WORLDHOTELS RESIDENCES

Project location • Phu Thuong Ward, Hanoi City

Project scale: • 34,263 m²

Project progress: ✓ 3 buildings topped out and completion work is underway.

✓ Expected handover: 4th Quarter 2026.

05

PROJECT NAME: SUNSHINE GOLDEN RIVER

- Project location: • Phu Thuong Ward, Hanoi City
- Project scale: • 9,004 m²
- Project progress: ✓ The project has been handed-over and put into use.

06

PROJECT NAME: SUNSHINE CAPITAL TAY THANG LONG

Project location: • Thuong Cat Ward, Hanoi City

Project scale: • 13,001 m²

Project progress: ✓ The project has been handed-over and put into use

07

PROJECT NAME: SUNSHINE GARDEN

Project location:

• Vinh Tuy Ward, Hanoi City

Project scale:

• 12,810 m²

Project progress:

✓ The project has been handed-over and put into use.

08

PROJECT NAME: SUNSHINE PALACE

- | | |
|-------------------|--|
| Project location: | • Vinh Tuy Ward, Hanoi City |
| Project scale: | • 3,778 m ² |
| Project progress: | ✓ The project has been handed-over and put into use. |

A wide-angle, low-perspective photograph of the Sunshine City project in Hanoi. The image shows several tall, modern skyscrapers with glass facades that reflect the sky. In the foreground, there is a lower-rise building with a more traditional architectural style, featuring white walls and dark roofs. The scene is set against a bright blue sky with scattered white clouds. The overall atmosphere is one of a modern, urban development.

09

PROJECT NAME: SUNSHINE CITY

Project location:

• Phu Thuong Ward, Hanoi City

Project scale:

• 42,187 m²

Project progress:

✓ The project has been handed-over and put into use

10

PROJECT NAME: SUNSHINE RIVERSIDE

- Project location:
- Phu Thuong Ward, Hanoi City
- Project scale:
- 11,949 m²
- Project progress:
- ✓ The project has been handed-over and put into operation

PROJECT NAME: SUNSHINE SKY CITY

- Project location:** • Tan My Ward, Ho Chi Minh City
- Project scale:** • 42,548.8 m²
- Project progress:** ✓ Building S1 has been handed over and put into use, while buildings S2, S3, and S4 are undergoing final construction to be handed over soon. Remaining buildings are under construction, with foundations and piles being laid.
- ✓ Expected handover: Buildings S2, S3, S4 2nd Quarter 2026.

Major investment activities in 2025 are as follows

- Acquired 54.5% of shares in Sunshine Tay Ho Joint Stock Company, thereby, from 30 June 2025, Sunshine Tay Ho Joint Stock Company has become a direct subsidiary of the Company;
- Acquired 51.11% of shares in DIA Investment Joint Stock Company, thereby, from 27 August 2025 DIA Investment Joint Stock Company has become a direct subsidiary of the Company;
- The Company's subsidiaries, Dynamic Innovation Co., Ltd. and Smartmind Securities Joint Stock Company, acquired additional shares in DIA Investment Joint Stock Company, thereby increasing the Company's ownership and voting rights in DIA Investment Joint Stock Company to 98.89% and 99.5% respectively;

In line with strategic restructuring plan, the Company focuses on building a multi-sector ecosystem, with real estate playing a core role. Alongside this, supporting and complementary sectors such as securities, construction, operations management, retail, education and technology are developed synchronously, contributing to the completion of the value chain and increasing the overall system's operational efficiency. This model aligns with the development trends of large corporations, aiming to optimize resources and enhance long-term competitiveness.

In 2025, revenue from real estate transfers of subsidiaries contributed over VND 19,149 billion, accounting for 94.81% of the Company's total net revenue. This revenue came from the handover of products of strategic categories. In addition, other areas such as securities, technology and operational services at affiliated companies maintained stable operations, recorded positive business results, and contributed to the Group's overall profit.

Remaining units of the ecosystem continue to operate according to the overall direction, focusing on cost control, improving operational efficiency, and gradually optimizing resources. Overall, subsidiaries and affiliated companies have played a supportive role in each other, contributing to strengthening the financial foundation and promoting sustainable growth of the Group.

1.1. OVERVIEW OF BUSINESS PERFORMANCE RESULTS IN 2025

1.1.1. RESULTS OF PRODUCTION AND BUSINESS ACTIVITIES IN 2025

In 2025, the Sunshine Group Board of Management focused on implementing solutions to improve governance efficiency and strengthen the Group's operational foundation. Streamlining the subsidiary company system, optimizing the governance structure, and restructuring the project portfolio have been carried out synchronously, along with strengthening cost control, improving capital structure, and enhancing cash flow management efficiency. In addition, project implementation

progress management, construction quality control, and operational optimization have also been emphasized to improve the overall system's performance. These management efforts contributed to strengthening the Group's financial foundation and improving business efficiency. The results achieved are reflected in the financial indicators and business performance in 2025 as follows:

No.	Indicator	Plan 2025 (VND billion)	Performance 2025 (VND billion)	Performance 2024 (VND billion)	Performance 2025/Plan 2025	Performance 2025 Increase/Decrease compared to Performance 2024
		(1)	(2)	(3)	(4) = (2)/(1)	(5) = [(2)-(3)]/(3)
1	Total revenue	50,000 – 60,000	21,292.83	3,167.81	42.59%	572.16%
2	Profit before tax	8,000 – 12,000	11,294.49	974.41	141.18%	1,059.11%

In 2025, the Company's consolidated total revenue reached VND 21,292.83 billion, equivalent to 42.59% of the year's plan and a 572.16% increase compared to 2024. Profit before tax reached VND 11,294.49 billion, equivalent to 141.18% of the year's plan and a 1,059.11% increase compared to the previous year. This result shows that, although the Company did not meet our revenue target, our operational efficiency and profitability have significantly improved, as evidenced by exceeding the profit target.

The main reason for not meeting revenue targets is the unique nature of the real estate sector, where revenue recognition is heavily dependent on the progress of legal procedures and project handover. During the year, several key projects of the Company were still in the implementation phase and did not yet meet the conditions for revenue recognition

according to regulations, thus not fully reflecting the actual scale of operations during the period. In addition, the Company's M&A roadmap is still ongoing for some investments, so some projects did not contribute revenue in 2025.

Although revenue targets were not fully achieved, the Group's Management believes that the results for the year do not yet fully reflect its growth potential, particularly as several strategic projects are currently under development and are expected to enter their revenue recognition phases in the coming periods.

Profit before tax exceeded the plan primarily due to the handover of projects with higher profit margins. At the same time, the Company continued to effectively control financial expenses, selling expenses, and general and administrative costs.

1.1.2. PROJECT INVESTMENT AND CONSTRUCTION ACTIVITIES

Over the past year, Sunshine Group has continued to expand our investment portfolio and accelerate the implementation of many new real estate projects in key markets, while maintaining construction progress at existing projects. The simultaneous implementation of multiple large-scale projects with high technical requirements demonstrates the Group's increasingly professional organizational, management and project implementation capabilities. Besides ensuring construction progress, Sunshine Group also pays special attention to construction quality, design standards, and amenity systems to deliver real estate products with

real and sustainable value to customers. The achievements of the past year further affirm Sunshine Group's brand reputation and position in the real estate market. Some typical projects implemented by the Group during the year include:

- In Hanoi, Noble Crystal Tay Ho WorldHotels Residences, Noble Palace Tay Thang Long WorldHotels Residences, Noble Crystal Long Bien WorldHotels Residences, and Noble Palace Garden, etc. These are all large-scale projects with strategic locations and are developed according to modern urban standards, contributing to the creation of high-quality living spaces for residents.
- In Ho Chi Minh City, Sunshine Group continues to accelerate the implementation of the Sunshine Sky City project, focusing on completing key components and ensuring progress according to the planned schedule.

1.1.3. THE COMPANY'S INVESTMENT AND M&A ACTIVITIES IN 2025

• Acquisition of shares in SmartMind Securities Joint Stock Company ("SmartMind"):

* In April 2025, Dynamic Innovation Co., Ltd. ("Dynamic Innovation") – a subsidiary in which the Company owns 86.52% of the charter capital – acquired 43.51% of the shares in SmartMind. Following the transaction, the Company's direct and indirect ownership stake in SmartMind increased to 88.63%, and further increased to 94.50% after the Company completed increasing its ownership shares in Dynamic Innovation to 100%.

• Public acquisition of Sunshine Homes Development Joint Stock Company ("Sunshine Homes"):

* In September 2025, after completing the share issuance for the public acquisition of Sunshine Homes Development Joint Stock Company, the Company owned 374,867,070 shares, equivalent to 99.96% of Sunshine Homes' charter capital. Subsequently, Sunshine Homes and all its subsidiaries officially became direct/indirect subsidiaries of the Company and were consolidated into the Company's financial statements.

* Additionally, Cam Dinh Ecological Investment Co., Ltd. also became an indirect affiliated company of the Company through Xuan Dinh Construction Investment Joint Stock Company.

• Acquisition of shares in Sunshine Tay Ho Joint Stock Company ("Sunshine Tay Ho"):

* In June 2025, the Company completed the acquisition of a total of 54.50% of the shares in Sunshine Tay Ho Joint Stock Company from individual shareholders.

* Upon transaction completion, the Company's direct and indirect ownership shares at Sunshine Tay Ho is 99.50%. These shares is held directly by the Company and indirectly through its subsidiary, Sunshine Homes Development Joint Stock Company.

• Acquisition of shares in DIA Investment JSC ("DIA"):

* In September 2025, the Company and its subsidiaries completed the share transfer transactions with DIA, thereby increasing the total ownership stake to 99.50% of the charter capital. This stake is held directly by the Company and indirectly through its subsidiaries, SmartMind Securities Joint Stock Company and Dynamic Innovation Limited Company.

• Acquisition of shares in Wonderland Investment JSC ("Wonderland"):

* In November 2025, Sunshine Sky Villa Joint Stock Company – a subsidiary of the Company – completed the acquisition of a total of 51% of the shares in Wonderland. Following this transaction, Wonderland became an indirect subsidiary of the Company through Sunshine Sky Villa Joint Stock Company.

• Acquisition of shares in Thai Minh Land Investment JSC ("Thai Minh Land"):

* In December 2025, DIA Investment Joint Stock Company – a subsidiary of the Company – completed the acquisition of 99.80% of the shares in Thai Minh Land. Following this transaction, Thai Minh Land became an indirect subsidiary of the Company through DIA Investment Joint Stock Company.

• Acquisition of 100% of the capital contribution in Dynamic Innovation Co., Ltd. ("DIC"):

* In December 2025, the Company completed the acquisition of 100% of the capital contribution in DIC from Smart Investment and Development Joint Stock Company. After the completion of the transaction, the Company's ownership and voting rights in Dynamic Innovation increased to 100% (compared to 85.80% at the beginning of 2025).

1.2. HUMAN RESOURCE MANAGEMENT AND EMPLOYEE BENEFITS

The Board of Management has always recognized human resources as a key factor determining the sustainable development and competitiveness of the Group. Therefore, human resource management and development are always prioritized through the establishment of a professional, transparent, and long-term human resource management system. The Group continuously improves our policies to attract, train, and retain high-quality personnel, while creating conditions for each employee to maximize our potential and remain committed to the organization in the long term.

- **Training and Development Policy:** Internal training programs are regularly implemented to enhance the professional competence and management skills of our staff at all levels. These training programs are designed to be flexible, combining theory and practice, helping employees improve their professional skills, adapt to market changes, and meet the increasingly demanding requirements of their jobs. Specifically:
 - * **Professional training:** Focus on updating knowledge about the market, technology, and development trends in the real estate sector, contributing to improved professional competence and work efficiency.
 - * **Enhance soft skills:** Develop essential skills such as communication, teamwork, time management, and leadership skills, supporting employees in their career development and advancement.
- **Compensation and Benefits Policy:** Sunshine Group has developed a competitive compensation and benefits policy, designed on the basis of fairness, transparency, and linked to work performance and the Group's operational results. This policy aims to ensure a stable life for employees while creating motivation for the workforce to develop their abilities and remain committed to the Group in the long term, specifically:
 - * Sunshine Group applies a salary system that is commensurate with skills and job position, ensuring compliance with legal regulations, while also implementing bonuses based on performance, business results, and holidays.
 - * Comprehensive insurance coverage: Employees are fully covered by all types of insurance as stipulated by law, such as social insurance, health insurance, and unemployment insurance, to ensure their rights and well-being during their employment.
 - * Extensive welfare policies: The Group implements various welfare programs such as financial support in cases of hardship, illness, and bereavement; reward programs for individuals and teams with outstanding achievements; and organizes internal bonding activities such as teambuilding, travel, and sports.
 - * Working environment and corporate culture: Sunshine Group develops a professional, transparent, and dynamic working environment that encourages creativity, collaboration, and proactiveness. At the same time, the Group focuses on developing a corporate culture based on core values such as professionalism, responsibility, and a desire for growth, thereby creating internal cohesion and building a team of employees who will be long-term partners in the Group's sustainable development.

02 FINANCIAL SITUATION

2.1. ASSET SITUATION

Indicator	Year 2023	Year 2024	Year 2025
Current assets (VND billion)	13,032.87	13,425.28	81,393.56
Non-current assets (VND billion)	5,212.92	7,133.06	38,750.11
Total assets (VND billion)	18,245.79	20,558.34	120,143.67
Current assets/ Total assets	71.43%	65.30%	67.75%
Non-current assets/ Total assets	28.57%	34.70%	32.25%

Asset situation chart

The Company's total assets increased sharply from VND 18,245.79 billion to VND 120,143.67 billion during the period from 2023 to 2025, indicating rapid expansion of the business scale, especially in 2025. The asset structure in 2025 shows that the proportion of short-term assets to long-term assets is 67.75% and 32.25%, respectively.

- **Current assets:** In 2023, current assets reached VND 13,032.87 billion (accounting for 71.43% of total assets). By 2024, this increased to VND 13,425.28 billion (accounting for 65.30% of total assets). In 2025, current assets are expected to increase sharply to VND 81,393.56 billion (accounting for 67.75% of total assets), reflecting the Company's increase in working capital to support business operations and expand our ecosystem.
- **Long-term assets:** The Company's long-term assets increased from VND 5,212.92 billion in 2023 (accounting for 28.57%) to VND 7,133.06 billion in 2024 (accounting for 34.70%), and are expected to continue to grow strongly to VND 38,750.11 billion in 2025 (accounting for 32.25%). This significant increase is mainly due to the Company's increased investment activities, expansion of its subsidiary portfolio, and intensified M&A transactions during the period.
- **Overdue receivables:** As of the reporting date, the Company has approximately VND 15.7 billion in overdue receivables (compared to VND 8.3 billion as of 31 December 2024). In the course of its business operations, the Company has proactively made provisions for these receivables to ensure financial prudence, mitigate the risk of capital loss, and optimize cash flow. Overdue receivables represent a very small proportion of the total outstanding receivables. Accordingly, they do not have a material impact on the Company's operating performance. For the remaining receivables, the Board of Management assesses that they are fully recoverable when due.

Comments:

The Company's asset structure maintains a high proportion of short-term assets, ensuring short-term liquidity. At the same time, the significant increase in long-term assets in 2025 indicates that the Company is entering a phase of large-scale investment expansion, particularly through the acquisition and consolidation of subsidiary units.

2.2. LIABILITIES SITUATION

Indicator	Year 2023	Year 2024	Year 2025
Liabilities (VND billion)	10,966.67	13,679.09	100,280.40
Owner's equity (VND billion)	7,279.11	6,879.24	19,863.27
Total capital (VND billion)	18,245.79	20,558.34	120,143.67
Liabilities/ Total capital	60.11%	66.54%	83.47%
Owner's equity/Total capital	39.89%	33.46%	16.53%

Liabilities situation chart

• Liabilities:

During the period 2023–2025, the Company's liabilities recorded a strong upward trend in both size and proportion within the capital structure. Specifically, in 2023, liabilities reached VND 10,966.67 billion, accounting for 60.11% of total capital. In 2024, liabilities increased to VND 13,679.09 billion, equivalent to 66.54% of total capital, indicating that the Company has increased its use of borrowed capital to meet the capital needs for production, business operations and investment.

By 2025, liabilities increased to VND 100,280.40 billion, accounting for 83.47% of total capital. This increase reflects the Company's proactive expansion of external capital mobilization to meet the needs of implementing large investment projects, while simultaneously boosting business development and expansion.

Overall, the increasing trend in the proportion of liabilities over the years reflects the Company's strategy of using financial leverage to capitalize on growth opportunities. The increase in debt, especially in 2025, indicates that the Company is in a phase of strong expansion, focusing resources on investment and development activities in the medium and long term.

• Overdue debt payments and the impact of interest rate differentials:

In 2025, the Company ensured timely payments to partners, with no overdue debts. As mentioned above, 2025 was a vibrant year for the real estate market. The Company utilized financial leverage to enhance competitiveness, expand scale, and optimize enterprise value. The Company's leadership assesses that the expected and actual profits of individual projects, and the Group's overall business operations, fully offset, or even significantly exceed, the impact of interest rate differentials resulting from the use of financial leverage.

• The impact of exchange rate differentials:

The Company did not engage transactions involving foreign currencies, therefore no foreign exchange rate differences arise.

03 IMPROVEMENTS IN ORGANIZATIONAL STRUCTURE, POLICIES, AND MANAGEMENT

In 2025, the Company remains committed to its sustainable development strategy, flexibly adapting to a volatile business environment. With a strong spirit of innovation, we have implemented a comprehensive range of solutions to optimize our organizational model, enhance management capabilities and operational efficiency, laying the foundation for breakthrough growth in the coming years.

• Organizational restructuring towards a lean and efficient model:

The Company continues to review and reorganize its organizational model, streamlining the structure to enhance professionalism and work efficiency. The management system is improved to ensure close coordination between departments and optimize resources.

• Expanding production and business operations, maximizing development potential:

The Company is accelerating its strategy to expand its core business, focusing on investing in areas with high growth potential and enhancing its competitiveness in the market. In addition, the Company proactively grasps market trends and seeks strategic cooperation opportunities to increase value and expand market share.

• Strengthening the restructuring of subsidiaries and optimizing the value chain:

With a sustainable development orientation, the Company continues to restructure our affiliated companies and rearrange its investment portfolio to improve operational efficiency. Refining the management model, optimizing resources, and strengthening linkages between affiliated units helps the Company increase our competitive advantage and maximize the potential of each unit.

• Applying technology in management and enhancing operational capabilities:

Digital transformation continues to be one of the Company's top priorities. We research and apply advanced technological solutions to our management and operational activities, including upgrading our IT infrastructure and applying artificial intelligence (AI) in data analysis and decision support. These improvements help enhance work efficiency, minimize risks, and ensure transparency in operations.

• Enhancing the quality of human resources and building a strong corporate culture:

Recognizing that people are the key factor for sustainable development, the Company focuses on training and developing our workforce in a specialized manner to meet the increasingly high demands of the market. Simultaneously, the Group culture is strengthened on a foundation of creativity, innovation, and a sense of responsibility, motivating each individual to maximize their potential.

04 FUTURE DEVELOPMENT PLAN

With a long-term vision, 2026 – the 10th anniversary of our formation and development – marks a significant turning point in the journey to realize the goal of becoming a diversified conglomerate, building a solid foundation for the next breakthrough phase. Based on the strategic directions approved by the Board of Directors at the Annual General Meeting of Shareholders 2026, the BOM has developed an implementation plan with the following key focuses:

Restructuring and optimizing resources

- * The Group continues to accelerate restructuring, gradually bringing affiliated companies and key projects under our direct control to standardize the governance model, improve operational efficiency, and optimize resource allocation. Under the direction of the Board of Directors, the BOM proactively seeks and expands land reserves, focusing on projects with transparent legal status, prioritizing strategic locations in urban areas with high infrastructure development rates.
- * On our expanded land bank, in 2026, the Group will focus on developing a series of high-quality projects with a “real value” orientation, meeting the real housing needs of the market. These projects will not be limited to the residential segment, but will also be oriented towards becoming iconic landmarks, connected to modern financial centers, technology research centers, and 4.0 office systems, in line with the development trends of the digital economy.
- * Simultaneously, the Group aims to enhance our construction capabilities by strengthening cooperation and gradually increasing its ownership stake in SCG Construction Group Joint Stock Company. The BOM will develop a clear development roadmap for SCG, aiming to assume the role of general contractor for the Group's real estate projects, thereby increasing proactive control and quality assurance. In parallel, financial control mechanisms and cash flow planning will be strengthened to ensure efficient capital utilization, risk management, and increased transparency in project implementation.
- * In addition, the BOM aims to develop approximately 20,000 high-quality housing products at reasonable prices, focusing on serving the real housing needs, especially of the younger generation and the knowledge workforce. The products are designed to optimize functionality, modernity, integrated amenities, and suitability to the financial capabilities of buyers

Strategy for mastering core technologies

- * Under the direction of the Board of Directors, the BOM focuses on implementing a comprehensive strategy to master core technologies, promoting research and application of Industry 4.0 technologies across the entire real estate value chain, from project development to operation and resident services. A technology ecosystem is built and deployed throughout, from technical infrastructure such as high-speed elevators, smart parking, electronic cards, and facial recognition technology, to digital platforms for building management and operation. The BOM directs efforts to enhance connectivity, data synchronization and optimize user experience throughout the entire product lifecycle.
- * Through the development of digital platforms such as Sunshine App and NOBLEX App, the Management Board is gradually realizing the vision of “smart home – smart life,” with a focus on the “digital citizen” ecosystem, keeping pace with the global Internet of Things (IoT) trend.
- * The flagship technology unit – Unicloud Technology Group Joint Stock Company – continues to receive investment and development in accordance with the Board of Directors’ direction, with a system of specialized laboratories and a modern production plant. The Management Board collaborates with Unicloud to build research and development capabilities in core technologies such as IoT, smart living, artificial intelligence (AI) and virtual reality (VR), thereby gradually mastering the technology and enhancing the Group's competitiveness. In particular, the accelerated application of AI in practice has helped NOBLEX App develop into a comprehensive digital platform, integrating mini-apps such as Houses For Sales, BankZone, NobleSales, NOBLEX, NobleLink and NobleHotels, NobleHouse, NobleGo, NOBLEX Capital, NobleSales, BankZone, NobleX Home+, etc.

Financial sector

- * In 2026, the Board of Management coordinated efforts to accelerate the development of SmartMind Securities Joint Stock Company toward a modern direction, with technology as the foundation to provide advanced securities products and services aligned with the market's digital transformation trend. At the same time, capabilities in analysis, investment advisory, and risk management continued to be enhanced, aiming to build a professional, transparent, and secure operating system, thereby improving service quality, optimizing customer experience, and strengthening the confidence of clients and investors.
- * In addition, the Group proactively expanded cooperation with financial organizations and investment institutions both domestically and internationally to diversify capital sources and enhance financial mobilization capacity.

Education sector

- * The Board of Management gradually implemented the development of the education sector in a modern direction, with international integration and alignment with emerging technology trends. Building on strategic investments made in previous periods, in 2026, the integrated education system continued to be expanded following an international model, with synchronized development from preschool to general education and with orientation toward higher education in the future.
- * In particular, the Group has promoted the establishment of a university specializing in finance and artificial intelligence (AI), while simultaneously implementing internationally standardized training programs and expanding cooperation with prestigious universities worldwide. The project is expected to be located in the Ciputra urban area, contributing to the completion of the Sunshine branded education ecosystem, and providing high-quality human resources for the knowledge economy and the Group's ecosystem.

With extensive experience in the market, Sunshine Group is constantly learning and adapting to all changes. Based on this foundation, the Group confidently implements a breakthrough growth strategy, aiming for ambitious yet achievable goals, ensuring sustainable development and significant progress in 2026.

05 THE BOARD OF MANAGEMENT'S EXPLANATION FOR AUDIT OPINION

None

ASSESSMENT REPORT ON THE ENVIRONMENTAL AND SOCIAL RESPONSIBILITIES OF THE COMPANY

In the past year, Sunshine Group has continued to affirm its commitment to sustainable development through the integration of environmental, social, and governance (ESG) factors into the Group's overall development strategy. The Board of Management clearly recognizes that, in addition to economic growth objectives, fulfilling environmental and social responsibilities is not only an obligation but also an important foundation for enhancing long-term corporate value.

Environment aspect

The Group has proactively implemented various solutions to minimize negative environmental impacts throughout the entire project lifecycle. Real estate projects are oriented toward green standards, with a focus on optimizing the use of energy, water resources, and environmentally friendly materials. Waste management, noise control, dust control, and other factors arising during construction are carried out strictly in full compliance with applicable laws and regulations.

In addition, Sunshine Group has gradually applied technology to management and operation to improve energy efficiency and reduce emissions, aiming at developing smart and sustainable urban areas. The increase in green space, water surface areas, and open spaces within projects is also emphasized, contributing to improved living environmental quality for residents.

Social aspect

Sunshine Group always places people at the center of all development activities. The Group focuses on building a professional and transparent working environment, ensuring full rights and improving employees' quality of life through competitive salary, bonus, and welfare policies.

At the same time, the Group actively participates in social responsibility activities, engaging with the community through charitable programs, supporting disadvantaged circumstances, and contributing to overall societal development. In project development, Sunshine Group consistently aims to create modern living spaces with integrated amenities, thereby enhancing residents' quality of life and promoting sustainable urban development.

Employees

Sunshine Group consistently identifies employees as the central factor in its sustainable development strategy. The Board of Management focuses on building a professional, transparent, and safe working environment, while ensuring full lawful rights of employees in accordance with legal regulations.

The Group maintains and continuously improves its salary, bonus, and welfare system in a competitive and fair manner, linked to job performance and business results. Mandatory insurance policies are fully implemented, along with additional welfare policies to improve the physical and mental well-being of staff members.

In addition, Sunshine Group places special emphasis on training and human resource development, creating conditions for employees to improve their professional qualifications, skills, and career advancement opportunities. The corporate culture is developed in a modern direction, promoting proactiveness, creativity, and cohesion, thereby contributing to higher employee satisfaction and long-term engagement with the Group.

Future orientation

In the coming period, the Board of Management has determined to continue improving the governance system in accordance with ESG standards, promoting the application of green technologies, and enhancing resource efficiency in projects. At the same time, the Group will expand social responsibility programs, strengthen engagement with the community and stakeholders, thereby contributing to the dissemination of sustainable development values.

With this consistent orientation, the Board of Management is confident that Sunshine Group will continue to develop steadily, harmoniously balancing business objectives with environmental and social responsibilities, thereby creating sustainable value for shareholders, customers, and the community.

THE BOARD OF MANAGEMENT'S VALUATION OF THE COMPANY'S OPERATION

1. Operational status of Sunshine Group Joint Stock Company in 2025
2. General Director's Evaluation of the performance of the General Director and members of the BOM
3. Production and business plan and operational orientation of the Board of Management in 2026

2025

01

OPERATIONAL STATUS OF SUNSHINE GROUP
JOINT STOCK COMPANY IN 2025

 1.1. OVERVIEW OF GENERAL ACTIVITIES IN 2025

2025 marks a crucial stage of development for Sunshine Group amidst Vietnam's rapidly transforming economy. During the year, the Group not only achieved our restructuring goals but also made significant breakthroughs, strengthening our internal foundation, perfecting our management system, and shaping our long-term development strategy for the next phase.

At the end of the 2025 fiscal year, Sunshine Group recorded consolidated total assets of over VND 120,000 billion; revenue exceeding VND 20,000 billion; and pre-tax profit of over VND 11,294 billion. These results not only reflect stable business operations but also demonstrate a significant improvement in the Group's management capabilities, resource allocation, and risk control. The positive financial indicators further affirm an increasingly sustainable financial structure, a progressively standardized operating system, and a strong internal foundation, enabling Sunshine Group to confidently enter the next decade of development.

In 2025, Sunshine Group marked a significant milestone in our development by completing the issuance of nearly 600 million shares to make a public acquisition of Sunshine Homes Development Joint Stock Company ("Sunshine Homes"). Following the transaction, the Company acquired

99.96% of Sunshine Homes' charter capital. From September 2025, Sunshine Homes officially became a subsidiary of Sunshine Group, and its subsidiaries such as Hung Thinh Phat Investment Company Limited, Xuan La Construction Investment Joint Stock Company, Anh Duong Star Joint Stock Company, Long Bien Construction Investment Joint Stock Company, and Xuan Dinh Construction Investment Joint Stock Company also became indirect subsidiaries of the Group. This transaction not only expanded the scale and project portfolio but also contributed to making Sunshine Group one of the leading real estate companies in terms of total assets and market capitalization.

Based on a clearly defined development strategy, in 2025, the Group will continue to accelerate the implementation of many key projects, while launching large-scale projects located in areas with high development potential, such as Noble Crystal Tay Ho Worldhotels Residences, Noble Palace Tay Thang Long Worldhotels Residences, Noble Crystal Long Bien Worldhotels Residences, and Noble Palace Garden in Hanoi. These projects all possess strategic locations and are oriented towards modern urban development standards, aiming to create high-quality living spaces with integrated infrastructure and amenities, thereby contributing to raising the standards of urban

development in the capital. In Ho Chi Minh City, the Group will continue to focus on completing key components of the Sunshine Sky City project, ensuring progress according to the planned schedule.

Alongside maintaining stable growth in the real estate sector, Sunshine Group continues to promote the application of technology in management and operations to enhance product quality and customer experience. Unicloud Technology Group Joint Stock Company – an affiliated company of the Group – has successfully researched and implemented smart home solutions, centralized data management and analysis systems, and an AI-powered security platform. These solutions are integrated seamlessly across projects, contributing to the creation of a modern, safe, and convenient living environment of high standards. In parallel with the development of technological infrastructure, the Noble App digital platform is continuously being improved and developed with the aim of becoming a pioneering AI-powered information and transaction channel for real estate, finance, and commerce, specifically for the elite community in Vietnam. The application not only provides clear and up-to-date project information but also creates a direct link between investors and the Group's sales team.

In addition to our business activities, Sunshine Group always prioritizes social and environmental responsibility and community values. Over the past year, the Company has partnered with Hanoi City's "Joining Hands for the Poor and Social Welfare" program, supporting patients in difficult circumstances at many major hospitals. Simultaneously, through the "Vietnamese Heart" Fund of Vietnam Television, Sunshine Group has contributed resources to support disaster relief efforts in many localities. Through the NobleGo platform, Sunshine Group has also implemented a business-philanthropy model by allocating VND 500 million from each livestream bidding session for houses. After 31 broadcast sessions, the total amount contributed reached VND 15.5 billion; and this funding has contributed to building over 30 shelters, 3 schools, and awarding hundreds of scholarships to disadvantaged children nationwide.

At the same time, Sunshine Group also pays special attention to the spiritual well-being of its residents and staff through team-building activities such as the Sunshine Cup 2025 football tournament and many other vibrant sports and cultural events. These activities contribute to building a positive, energetic, and cohesive work environment, creating a solid human resource foundation for the Group's sustainable development in the next phase.

1.2. INVESTMENT AND M&A ACTIVITIES OF THE COMPANY IN 2025

The Company continues to pursue significant investment and M&A deals to enhance our position, expand our scope of operations and strengthen our strategic business areas. This has significantly increased the Company's asset scale and control in key sectors, marking a crucial step in perfecting its ownership structure and governance model towards greater focus, transparency, and efficiency. Increasing controlling stake in affiliated companies allows Sunshine Group to proactively coordinate strategies, optimize capital flows and effectively utilize land resources, financial resources and technological platforms throughout the entire ecosystem.

02

BOARD OF MANAGEMENT'S EVALUATION OF THE PERFORMANCE OF THE GENERAL DIRECTOR AND MEMBERS OF THE BOARD OF MANAGEMENT

2.1. PERFORMANCE OF THE GENERAL DIRECTOR

In 2025, the General Director of Sunshine Group effectively managed business operations amidst a gradually recovering real estate market that still harbored many unpredictable risks and fluctuations. Through proactive and flexible implementation of management solutions, the General Director successfully capitalized on market opportunities, contributing to the Group's positive business results.

The Board of Directors acknowledges and highly appreciates the sense of responsibility, management capabilities, and efforts of the General Director in effectively organizing and implementing the Group's strategic directions and decisions, thereby strengthening the financial foundation and creating momentum for the next growth phase. Specifically:

- **Business operations:** Based on the strategic direction of the Board of Directors, the General Director proactively organized and effectively coordinated the activities of the BOM during implementation. Operational solutions have been implemented flexibly in each stage, ensuring that the Company's operations always adhered to strategic objectives and adapted promptly to market developments. As a result, the Company not only maintained operational stability but also recorded positive growth, creating a foundation for breakthrough business results in the period.

- **Internal development:** Under the direction of the General Director, the BOM has focused on streamlining the organizational structure, improving the quality of the workforce, and perfecting the management system towards a professional and modern direction. Standardizing operational processes, developing synchronized management policies, and strengthening the capacity of the workforce have contributed to forming a solid internal foundation, supporting the company's long-term and sustainable development.

- **Legal compliance and social responsibility:** Amidst the challenges from the business environment and increasingly stringent legal requirements, the General Director upheld strict compliance with legal regulations and the Company's commitments. Additionally, the General Director ensured employees' rights and fulfilled obligations to state management agencies.

- **Risk management:** In response to market fluctuations, the General Director instructed the BOM to proactively identify potential risks early on and develop appropriate control plans and response scenarios. As a result, the company maintained operational stability, minimized adverse impacts, and enhanced its adaptability to changes in the business environment.

2.2. PERFORMANCE OF THE MEMBERS OF THE BOARD OF MANAGEMENT

The members of the Board of Management worked closely with the General Director and the Board of Directors, ensuring the smooth operation of the Company and the successful achievement of its objectives. Key highlights include:

- **Collaboration and information sharing:** The members of the Board of Management maintained strong communication with the Board of Directors and the General Director, regularly updating actual situation and providing timely feedback. This helped the Board of Directors make appropriate decisions.

- **Compliance with the reporting regime:** The Board of Management ensured that all relevant departments completed financial statements accurately and on time as prescribed guaranteeing the transparency and accuracy of financial information.

- **Proposal for solutions:** With in-depth knowledge of the Company's business operations, the members of the Board of Management have proactively proposed many practical solutions to help the Company overcome challenges and seize growth opportunities.

- **Operational efficiency control and improvement:** Beyond its designated responsibilities, the Board of Management focused on enhancing operational efficiency, optimizing workflows, and improving labor productivity, contributing significantly to the Company's overall business performance.

PRODUCTION AND BUSINESS PLAN AND OPERATIONAL ORIENTATION OF THE BOARD OF DIRECTORS IN 2026

3.1. PRODUCTION AND BUSINESS PLAN IN 2026

Entering 2026 with a solid foundation from positive business performance in 2025, Sunshine Group continues to set the goal of maintaining sustainable growth momentum. Although the real estate market is forecasted to still contain many challenges, the Board of Directors, based on a comprehensive

assessment of the production and business situation, internal resources, and market potential, has built the business plan 2026 with a stable development orientation, improving operational efficiency and optimizing profits as follows:

Indicator	Business plan 2026 (VND billion)
Total revenue	40,000
Profit before tax	15,000

3.2. DEVELOPMENT STRATEGY ORIENTATION 2026

2026 marks the 10th anniversary of the Group's formation and development, ushering in a new phase with a long-term vision and aspiration to create sustainable values for the Vietnamese real estate market. After a decade of building a foundation and shaping the ecosystem, the Group enters a new growth cycle with a consistent strategic direction: Restructuring for breakthroughs, consolidating real value, and aiming to develop future urban heritage.

In the context of Vietnam's economy and the real estate market being on a strong recovery trajectory, the Board of Directors assesses that 2026 is a milestone year, marking the time when Sunshine Group makes a breakthrough and develops strongly through the following key strategic directions:

- **Continue to accelerate restructuring and focus resources:**

Sunshine Group continues to implement a comprehensive restructuring strategy, gradually bringing affiliated companies and key projects under our direct control to standardize the governance model, improve operational efficiency, and optimize resource allocation. Based on this, the Group proactively expands our land bank and project portfolio with transparent legal status, prioritizing strategic locations in urban areas with high infrastructure development rates.

Simultaneously, M&A activities will be selectively implemented, focusing on potential land funds and projects to increase long-term value and strengthen the development foundation. At the same time, the Group aims to improve construction efficiency by strengthening cooperation and gradually increasing its ownership stake in SCG Construction Group

Joint Stock Company, thereby increasing our proactive role throughout the entire project development chain.

Building on our expanded land bank, in 2026, the Group will focus on developing a series of high-quality projects with a "real value" orientation, meeting the real housing needs of the market. These projects will not only be limited to the residential segment, but will also be oriented towards becoming iconic landmarks, connected to modern financial centers, technology research centers, and 4.0 office systems, aligning with the development trends of the digital economy and the needs of domestic and international corporations.

Furthermore, in response to the Government's policy on addressing the housing problem, the Group aims to develop approximately 20,000 high-quality housing units at reasonable prices, focusing on serving the real housing needs, especially of the younger generation and the

skilled workforce in major cities. These products are oriented towards optimizing functionality, modern design, integrated amenities, and suitability to the financial capabilities of buyers.

- **Strategy for mastering core technologies:**

In 2026, Sunshine Group will intensify research into solutions and the application of Industry 4.0 technology to the real estate market, from project development to operation and resident services. Projects will be oriented towards the synchronous integration of modern technological solutions, aiming for a "smart real estate" model, providing a convenient, modern, and personalized lifestyle for customers. A comprehensive technology ecosystem will be implemented, from technical infrastructure systems such as high-speed elevators, smart parking, electronic cards, and facial recognition technology, to digital platforms for building management and operation.

By developing digital platforms like Sunshine App and NobleX App, the Group is gradually realizing our vision of "smart homes - smart lives," centered around an ecosystem of "digital citizens," keeping pace with the rapidly developing global trend of the Internet of Things (IoT). The leading technology unit within this ecosystem - Unicloud Technology Group Joint Stock Company - will continue to receive investment and development in 2026 with a system of specialized laboratories and a modern manufacturing plant. With a team of engineers, experts, and researchers from diverse fields, Unicloud handles the entire research and development chain, from electronic and mechanical hardware design, software system architecture to advanced technologies such as IoT, smart homes/smart living, artificial intelligence (AI), and virtual reality (VR).

In particular, the increased research and application of AI in practice has helped Noble App become a comprehensive digital platform, integrating an ecosystem of features to serve diverse customer needs. Notable subsystems include: Houses For Sales (accessing primary property listings and online booking), BankZone (connecting financing packages from partner banks), NobleSales (supporting the sales force), NobleX (social media and digital commerce platform), NobleLink (connecting real estate buying, selling, and leasing transactions), and NobleHotels (solutions for operating and managing properties according to international hotel standards)

- **Financial sector:**

In our long-term vision, Sunshine Group has always identified the financial sector as one of our key pillars, playing a supporting and leading role in investment and development activities. Accordingly, in 2026 the Group will continue to focus on accelerating the development of SmartMind Securities Joint Stock Company in a modern direction, using technology as a foundation to provide advanced securities products and services, in line with the digital transformation trend of the financial market.

Alongside product development, the Company focuses on enhancing its analytical capabilities, investment consulting, and risk management, aiming to build a professional, transparent, and secure operating system. This will provide an optimal investment experience, increasing trust and sustainable value for customers and investors.

Furthermore, the Group aims to expand cooperation with domestic and international financial institutions and investment organizations to diversify funding sources and enhance its financial mobilization capacity. This will be a crucial foundation for effectively implementing key, large-scale projects, while simultaneously strengthening the Group's financial capacity and competitiveness in the new development phase.

- **Education sector:**

Aiming to build a modern, internationally integrated education ecosystem linked to new technological fields, and building on strategic investment deals implemented in the previous period, in 2026 Sunshine Group will accelerate the development of a multi-level education chain based on an internationally integrated model. This will include not only kindergartens and secondary schools but also expand to a high school system and university, gradually forming a comprehensive education ecosystem under the "Sunshine Group" brand name. In particular, the Group will promote the establishment of a university specializing in finance and AI, implementing international training programs and establishing links with prestigious universities worldwide, located in Ciputra urban area.

CORPORATE GOVERNANCE

1.3. ACTIVITIES OF THE BOARD OF DIRECTORS

a. General activities

In 2025, the Board of Directors held 61 meetings to issue resolutions, decisions, and directives on the Company's production and business activities. The resolutions of the Board of Directors were issued in accordance with the procedures stipulated in the Charter and the Internal Regulations on Corporate Governance.

The meeting's agenda covered all issues related to the Company's operations and was thoroughly discussed and evaluated by the Board of Directors members in a spirit of openness, fairness, transparency and prudence to jointly arrive at the best possible decisions.

All decisions and resolutions of the Board of Directors are approved by majority vote. The resolutions issued focus on addressing key issues related to the Company's operations, implementing the 2025 business plan according to the set objectives, and responding to market fluctuations.

Some notable decisions approved by the Board of Directors include:

- Organizing the Annual General Meeting of Shareholders 2025;
- Approval of the Board of Directors' program and operational plan;
- Approval of policies, plans and strategies for M&A and restructuring of investments;
- Approval of transactions involving insiders and related parties;
- Implementation of the plan to issue shares for public acquisition of SSH shares;
- Other activities within the scope of authority.

ACTIVITIES OF THE BOD INDEPENDENT MEMBERS (REPORT OF THE BOD INDEPENDENT MEMBERS)

a. Activities of the BOD independent members

In 2025, the Company had one BOD independent member, Mr. Vu Le Hieu. In his role, the BOD independent member fully performed his assigned duties objectively and independently, contributing to protecting the legitimate rights and interests of shareholders, and monitoring the Company's operations to ensure compliance with current laws and regulations. Specifically:

- Fully participate in meetings of the Board of Directors, contribute opinions to shape business objectives and operational policies of the Company.
- Identify shortcomings in governance and propose timely corrective solutions.

- Play an independent counterbalancing role, assist the Board of Directors in making sound decisions and minimize conflicts of interest.
- Share knowledge and experience to improve the governance capabilities of relevant Departments.
- In 2025, the remuneration for the BOD independent member was VND 600 million. In addition to the aforementioned remuneration, no other operating expenses will be incurred for the BOD independent member's activities.

b. BOD independent member's comments on the BOD's performance

- The Board of Directors consists of 05 members, including 01 independent member, 03 non-executive members, and 01 executive member. The BOD members fully participated in the meetings, actively discussed and unanimously approved important decisions, ensuring transparency in governance and full compliance with legal regulations.
- In 2025, the Board of Directors issued 61 resolutions on the Company's activities within its authority. These resolutions were issued in accordance with the prescribed procedures

and were disclosed promptly and fully in accordance with the laws on securities and the securities market.

- The BOD independent member highly appreciated the effective coordination between the Board of Directors and the Board of Management in managing and operating the Company's activities; and also recommended further improvement in corporate governance to meet the increasingly high standards of the stock market.

c. Valuation of the Board of Directors' oversight of the General Director and other members of the Board of Management

- Generally, the Board of Directors effectively fulfilled its supervisory role over the BOM Officers in the Company's operations, ensuring that activities are implemented in accordance with the strategic direction approved by the General Meeting of Shareholders, while also promptly adjusting decisions when practical circumstances require it.
- The Board of Directors regularly monitored, guided, and supervised the operational progress of the General Director and the BOM Officers, ensuring the correct implementation of regulations on delegation of authority, as well as policies and plans approved by the Board of Directors.
- Several important regular meetings of the Board of Management are attended by non-executive members of the Board of Directors. At these meetings, executive decisions are analyzed, discussed, and consulted with members of the Board of Directors to arrive at optimal solutions that ensure the Company's overall interests.
- Through this coordination and participation mechanism, the Board of Directors always keeps abreast of the Company's operational situation and quickly updates on emerging practical requirements to provide appropriate guidance.

d. Evaluation of the coordination of activities between the BOD independent members and the Board of Directors, the Board of Management and shareholders

The coordination of activities between the Board of Directors and Board of Management Officers is close and effective. In 2025, the Company did not receive any shareholder complaints regarding misconduct by the Board of Directors, Board of Management Officers, or Company managers in the performance of their duties.

e. Recommendations

The BOD independent member of the Board of Directors makes the following recommendations regarding the governance and management of the Board of Directors:

- The Company's departments continue to strictly adhere to the regulations in the Company charter and relevant laws, especially regarding transactions with insiders, related parties, and subsidiaries (if any), in order to ensure transparency in operations and minimize legal risks.

- Regular inspections and evaluations of business operations should be conducted to promptly identify risks arising during operation, thereby enabling appropriate control and corrective measures.

- The Company needs to continue reviewing and improving its governance processes and internal control systems to enhance operational efficiency, strengthen governance capabilities, and ensure stable and sustainable long-term development.

f. Conclusion

In 2025, the Board of Directors performed its governance duties with a high sense of responsibility, ensuring compliance with regulations on corporate governance for public companies as stipulated by law. The Board of Directors' activities focused primarily on strategic direction, monitoring operational activities, and ensuring the achievement of the Company's development goals.

Board of Directors meetings are held as needed to review, discuss, and approve matters within their authority. The Board of Directors employs flexible communication methods to ensure that governance and decision-making processes are

carried out promptly and without disrupting the Company's operations. Simultaneously, the Board of Directors regularly monitors the implementation of resolutions and decisions of the General Meeting of Shareholders and the Board of Directors; and closely tracks the operational activities of the Board of Executive Officers in achieving the set business objectives and plans.

Generally, the Board of Directors has fully fulfilled its roles in governance, supervision, and operational direction of the Company, contributing to maintaining stability in production and business operations and ensuring compliance with current legal regulations.

3.3. CONTRACTS OR TRANSACTIONS WITH INTERNAL PERSONS

Information on contracts or transactions signed or executed during the year with the Company, subsidiaries, companies that the Company controls by members of the Board of Directors, members of the Board of Supervisors/Audit Committee, Directors (General Director), managers and people related to the above subjects:

Transactions between the Company, subsidiaries and members of the Board of Directors and related people of such members; transactions between the Company and companies in which members of the Board of Directors are founding members or business

managers in the last 03 years before the transaction have been disclosed in Section VII of the Company's Corporate Governance Report 2025. This content has been disclosed on the Company's website at <https://sunshinegroup.vn/bao-cai-quan-tri-cong-ty/>.

The procedures and order for approving transactions between the Company and related parties are strictly implemented in accordance with the provisions of the Law on Enterprises, the Law on Securities, and the Company's internal governance regulations. Transactions between the Company and related parties are approved by the Board of Directors and disclosed in accordance with the provisions of law.

3.4. EVALUATION OF THE IMPLEMENTATION OF CORPORATE GOVERNANCE REGULATIONS

Corporate governance is one of the issues that enterprises pay special attention to and is implemented in accordance with the provisions of the Law, the Charter and the Company's internal governance regulations. For the purposes and interests of the Company and its shareholders, as well as to facilitate the effective monitoring of the Company's operations, and to encourage the Company to make the best use of its resources. The Company has issued a system of internal governance regulations to create a unified and consistent governance mechanism to control and monitor the Company's operations in a professional,

transparent and effective manner, contributing to ensuring the interests of shareholders and the harmony with the interests of stakeholders including customers, employees and the community. In 2025, the Company strictly implements the regulations on corporate governance such as the Information Disclosure Regulations, the Charter, and the Company's internal governance regulations. In addition, the Board of Directors also regularly updates changes in legal regulations on governance to supplement and adjust the Company's governance regulations in accordance with legal regulations.

SUSTAINABLE DEVELOPMENT REPORT

1. Message of the Sustainable Development
2. Sunshine Group's principles of sustainable development
3. Environmental and social assessment

Throughout Sunshine Group's development journey, economic growth has always gone hand in hand with responsibility towards society, the community, and the environment. The Group believes that a sustainably developing business not only creates economic value for shareholders but also actively contributes to the overall development of society, improves the quality of life for the community, and strives for harmony with the natural environment.

With a vision to become a leading multi-sector economic group in Vietnam, Sunshine Group is steadfast in pursuing a development strategy based on sustainable values, with people at the center, technology as the driving force, and transparent governance as the foundation. Through the development of a comprehensive ecosystem in the fields of real estate, technology, finance, education, healthcare, and services, Sunshine Group aims to create high-quality, modern, and sustainable living spaces, contributing to urban development and improving the quality of life for its people.

In the context of a rapidly transforming economy towards digitalization and green development, Sunshine Group clearly defines our role not only as a business enterprise but also as a creator of

value for society. The Group consistently strives to build modern, environmentally friendly real estate projects, applying advanced technology in management and operation, while developing technological platforms to enhance management efficiency and increase value for customers.

Simultaneously, Sunshine Group focuses on building a professional working environment, encouraging innovation and developing high-quality human resources. The Group also actively participates in social responsibility activities, contributing to the community through education, healthcare, social welfare programs and charitable activities.

In the coming period, Sunshine Group will continue to steadfastly pursue a sustainable development orientation linked to the "Real Value" strategy, constantly improving project development standards, optimizing resource utilization efficiency, and strengthening responsibility towards the environment and society. With a spirit of innovation, aspiration for advancement, and a commitment to long-term development, Sunshine Group wishes to continue accompanying the development of the Vietnamese economy, making positive contributions to the construction of modern, civilized, and sustainable cities for future generations.

➤ Developing alongside local communities

Sunshine Group has always considered our development to be closely linked to the socio-economic development of the localities where we invests and conducts business. Through the development of large-scale, modern and integrated real estate projects, Sunshine Group contributes to promoting urbanization, improving infrastructure and enhancing the quality of life for the people.

In many localities, especially in rapidly growing urban areas, Sunshine Group plays a pioneering role in driving the flourishing real estate market and transforming the urban landscape. The

Group's projects are meticulously planned, with comprehensive investment in infrastructure, amenities, and landscaping, contributing to the formation of modern, civilized, and vibrant urban areas.

Besides creating projects with long-term value for the city, Sunshine Group's projects also generate numerous job opportunities and promote the development of trade, services, and related economic sectors. Through this, the Group actively contributes to economic growth, increases budget revenue and enhances the investment attractiveness of the locality.

➤ Sustainable Development & Responsibility

Sunshine Group is committed to pursuing a sustainable development orientation, considering social and environmental responsibility as a crucial element in all of the Group's activities. Throughout our investment and business operations, Sunshine Group always strives for a balance between economic efficiency, environmental protection and community benefits.

In project development, the Group focuses on modern planning and design solutions to optimize resource utilization, improve operational efficiency, and minimize environmental impact. Urban areas

developed by Sunshine Group are oriented towards becoming green, convenient living spaces in harmony with nature, contributing to an improved quality of life for residents.

Furthermore, Sunshine Group always prioritizes corporate governance, strictly adheres to legal regulations, and continuously enhances transparency in its management operations. The Group also focuses on ensuring a harmonious balance of interests among the company, customers, shareholders, employees, and the community.

➤ Human Resources Development

Sunshine Group is always committed to improving the quality of life and contributing to human development. For our employees, the Company has been striving to create a humane working environment, continuously improving policies for workers, from salaries and bonuses to benefits. The Company also provides the best conditions for employees to fully develop their potential through flexible recruitment policies and in-depth training programs. Sunshine Group always recognizes human resources as the core foundation determining the competitiveness and sustainable development of the Group. Therefore, in our long-term development strategy, Sunshine Group places special emphasis on building and developing a high-quality workforce with professional expertise, innovative thinking and spirit of dedication.

For our customers, Sunshine Group always places the interests and experiences of residents at the center of our product development process. The Group focuses on selecting optimal planning, design and project development solutions to create modern, convenient and sustainable living spaces.

Through this, Sunshine Group aims to contribute to improving the quality of life for residents while creating a favorable living environment for the development of future generations.

For the community, the Company is deeply aware of our corporate social responsibility, regularly implementing community-oriented activities, paying particular attention to disadvantaged groups. Sunshine Group's support programs focus on practical areas such as education, healthcare, culture and social welfare activities, thereby contributing to spreading humanitarian values and making a positive contribution to the sustainable development of society.

Over the past period, Sunshine Group has gradually accumulated experience in integrating sustainable development elements into our management and business operations. Building on this foundation, the Group will continue to refine our sustainable development strategy in a professional, systematic and in-depth manner, aiming to enhance practical effectiveness and expand positive contributions to the community and society in the future.

• ENVIRONMENTAL IMPACT

During the investment and development process, the Group focuses on applying green building solutions, using environmentally friendly materials and integrating energy-saving technologies. These solutions not only contribute to protecting natural resources but also help minimize environmental pollution, limit direct and indirect greenhouse gas emissions, and reduce negative impacts on the ecosystem.

Sunshine Group is committed to implementing modern construction methods that adhere to environmental protection standards throughout the entire lifecycle of our projects. From planning and design to construction and operation, the Group's projects are oriented towards sustainable development criteria, including efficient management and treatment of construction waste, prioritizing the use of environmentally friendly materials, and applying smart building design and operation solutions to optimize energy efficiency and improve the quality of life.

➤ Materials

To minimize environmental impact during project construction, Sunshine Group places special emphasis on selecting environmentally friendly building materials and applying technological solutions. Besides collaborating with reputable construction contractors with rigorous quality control processes, the Group's technical department regularly researches, updates and selects advanced building materials and technologies that align with global green building trends.

Due to the unique characteristics and varying implementation timelines of each project, environmental indicators are monitored and evaluated separately for each construction. In the future, Sunshine Group plans to continue researching to improve the environmental management and data aggregation system in a synchronized manner, serving the Group's sustainable development management.

In project implementation, Sunshine Group is progressively prioritizing the use of environmentally friendly building materials, while also increasing the use of domestically available materials to reduce transportation costs, limit emissions, and improve resource efficiency. Some typical directions include:

- Prioritize the use of environmentally friendly and domestically produced building materials, such as bricks, stones, equipment and technological piping systems, contributing to reducing dependence on imported materials and optimizing construction costs.
- Gradually replace traditional fired bricks – a material that may increase emissions during production – with lightweight bricks and unfired bricks. These materials are not only more environmentally friendly but also ensure the durability, load-bearing capacity and structural safety of the construction.
- Increase the use of artificial wood materials such as laminate, MDF, plywood, or recycled wood fiber materials to replace natural wood. These materials possess high stability, resist warping, good water and abrasion resistance, and still meet the aesthetic requirements of interior design.
- Utilize rapidly renewable materials, such as bamboo-based wood flooring, in suitable projects. These materials are highly durable, lightweight and environmentally friendly, contributing to enhanced sustainability in building design and operation.

➤ Water resources

Sunshine Group prioritizes the efficient management and use of water resources during the development and operation of our projects. Clean water is primarily supplied from local water treatment plants, with flow rates calculated and allocated appropriately according to the scale and needs of each project. In engineering design, Sunshine Group's projects prioritize the application of water-saving equipment and solutions such as sensor faucets, faucets with air mixing functions, dual-flush toilets and other water-saving household appliances. These solutions optimize water usage in daily life while improving the operational efficiency of the buildings.

Furthermore, for projects with high hot water demand, the Group encourages the adoption of solar water

heating systems to reduce electricity consumption and improve the efficiency of renewable energy use. Projects are also designed with underground water tanks and on-site wastewater treatment plants to reuse treated water that meets environmental standards for activities such as irrigation and landscaping. This water reuse not only contributes to water conservation but also reduces the burden on the urban drainage system.

Furthermore, the water supply systems in these projects are integrated with devices to monitor and control water consumption, helping to detect potential losses or operational problems early, thereby enabling timely corrective action and improving the efficiency of water resource management.

➤ Minimizing emissions and energy consumption

Alongside efficient water resource management, Sunshine Group's projects are also oriented towards optimizing energy use and reducing emissions during construction and operation. From the design phase, numerous technical solutions have been integrated to improve energy efficiency and minimize environmental impact.

One of the key directions is the gradual application of renewable energy sources, especially solar energy in projects with suitable conditions. Exploiting this clean energy source helps reduce the demand for electricity from traditional sources, while also contributing to limiting greenhouse gas emissions during the operation of the facilities.

Additionally, buildings and urban areas are designed according to energy-saving criteria,

prioritizing the use of LED lighting systems, high-efficiency air conditioning equipment and intelligent management and control systems. These solutions help optimize electricity consumption, reduce waste during use, and improve the operational efficiency of the buildings.

The synchronized application of energy management solutions not only contributes to reducing operating costs for residents but also actively contributes to the goal of reducing emissions, aiming towards building modern, environmentally friendly, and sustainable urban areas.

➤ Waste management

Strictly implement waste control procedures, from sorting to processing according to standards, to minimize negative impacts on the environment. Organize awareness campaigns to improve waste sorting and disposal among residents and

employees, encourage green living models, and reduce the use of plastic bags and single-use plastics in Sunshine Group's projects and service ecosystem

➤ Environmental compliance

Sunshine Group places special emphasis on ensuring full compliance with all legal requirements related to environmental protection throughout our investment, construction and operation activities. This principle is applied consistently to internal units as well as partners involved in the project development process, including construction contractors, material suppliers and related service providers. Regular monitoring is conducted to ensure all activities meet current environmental standards and regulations. Simultaneously, the Group proactively updates knowledge of new legal

regulations and collaborates with relevant parties to promptly address any arising issues, ensuring that project implementation is transparent and compliant with regulations.

In this reporting period, Sunshine Group did not record any significant violations related to environmental protection regulations, demonstrating the Group's seriousness in maintaining compliance standards and aiming for sustainable development.

• SOCIETY

➤ Employee welfare and care policies

Sunshine Group always prioritizes building a comprehensive welfare system, aiming to ensure the rights and improve the quality of life for our employees. Besides fully implementing regulations such as social insurance, health insurance, and unemployment insurance, the Group also implements many supplementary incentive policies to motivate employees and strengthen their long-term commitment. Throughout the year, the Group maintains a competitive average income, contributing to improving the lives of employees, while also organizing numerous professional and skills training programs to develop the workforce's capabilities. Activities caring for the spiritual and material well-being are regularly maintained through cultural and sports programs, internal team-building activities and timely support in difficult circumstances.

Indicator	Year 2024	Year 2025
Average income (VND/person/month)	27,717,673	44,309,916

Beyond caring for our employees, Sunshine Group also prioritizes social responsibility and community values. The Group actively participates in social welfare programs, notably the "Joining Hands for the Poor and Social Welfare" initiative of Hanoi City, supporting patients in difficult circumstances at many large hospitals; and contributing resources through the "Vietnamese Heart" Fund of Vietnam Television to support disaster relief efforts in many localities.

➤ Occupational safety and health

Sunshine Group places special emphasis on ensuring occupational safety and health for our employees throughout all production and business activities. The Group implements occupational safety management measures in accordance with legal regulations, while also developing risk control procedures to prevent workplace accidents and protect the health of our officers and employees. At construction projects, occupational

safety regulations are strictly disseminated and monitored, including the provision of adequate protective equipment, regular occupational safety training and inspection and monitoring during construction. Maintaining a safe working environment not only protects employees but also contributes to improved operational efficiency and project implementation quality.

➤ Building long-term community relationships and partnerships with customers

- Customer safety and health: Sunshine Group always prioritizes the safety and health of our customers in the development and operation of projects. All projects invested in by the Group are implemented in strict compliance with standards for construction safety, fire prevention and control, security and operational management. In addition, the design solutions and amenities in the projects are carefully studied to ensure a safe, convenient and suitable living environment for various resident groups, including children, the elderly and the disabled.
- The Group also gradually applies modern management standards and solutions in the development of buildings and living spaces, aiming to improve the quality of the living environment and create convenient, friendly and sustainable urban areas for residents.
- Customer information security: The Company is committed to absolutely protecting customer information in accordance with the law on consumer protection, ensuring that all customer information is stored and used safely, transparently and for the intended purpose. Customer-related data is strictly controlled

within the internal management system and is only used to support the Group's product and service provision activities. Sharing or providing information to third parties is only permitted with the customer's consent or at the request of competent authorities as stipulated by law.

- Collaboration with the community and stakeholders: In addition to building long-term relationships with customers, Sunshine Group also focuses on developing cooperative relationships with social organizations, management agencies and local communities where the Group operates. Through dialogue programs, community activities and initiatives supporting social development, Sunshine Group aims to strengthen connections and create shared value between the business and society.
- The Group believes that sustainable business development must be built on a foundation of cooperation, sharing and listening among stakeholders. Therefore, Sunshine Group always strives to maintain open channels of communication with the community, thereby jointly addressing social issues, improving quality of life and creating lasting value for the community and the business.

FINANCIAL STATEMENTS

1. Report of the Board of Management
2. Independent Auditor's Report
3. Consolidated Balance Sheet

STATEMENT OF THE BOARD OF EXECUTIVE OFFICERS

The Board of Executive Officers of Sunshine Group Joint Stock Company (the Holding Company) presents this the consolidated financial statements of the Holding Company and its subsidiaries (the "Company")'s for the year ended 31 December 2025.

THE BOARD OF DIRECTORS AND EXECUTIVE OFFICERS

The Boards of Directors and Executive Officers of the Company during the year and to the date of this report are as follows:

Board of Directors:

Mr. Do Anh Tuan	Chairman
Ms. Nguyen Thi Phuong Loan	Member
Mr. Do Van Truong	Member
Mr. Vu Le Hieu	Independent Member
Mr. Jun Sungbae	Member (appointed on 26 April 2025)
Ms. Do Thi Dinh	Member (resigned on 26 April 2025)

Board of Executive Officers:

Ms. Nguyen Thi Phuong Loan	Chief Executive Officer (appointed on 25 March 2025)
Mr. Do Van Truong	Chief Executive Officer (appointed on 01 March 2025 and resigned on 25 March 2025)
Ms. Do Thi Dinh	Chief Executive Officer (resigned on 01 March 2025)
Mr. Cao Phi Hung	Executive Officer (appointed on 25 March 2025)
Mr. Le Van Nho	Executive Officer (appointed on 25 March 2025)
Mr. Nguyen Thanh Hung	Executive Officer (appointed on 25 March 2025)
Mr. Dinh Chi Hieu	Executive Officer (appointed on 25 March 2025)
Mr. Nghien Xuan Anh	Executive Officer (appointed on 05 November 2025)
Ms. Nguyen Thi Thanh Ngoc	Executive Officer (appointed on 25 December 2025)
Mr. Nguyen Khac Trung	Executive Officer (appointed on 07 January 2026)
Ms. Tran Thi Nhu Loan	Executive Officer (appointed on 25 March 2025 and resigned on 10 June 2025)
Ms. Nguyen Thuy Hoang Dung	Executive Officer (appointed on 16 June 2025 and resigned on 25 November 2025)
Mr. Phan Ich Long	Executive Officer (resigned on 17 April 2025)
Mr. Le Hoang Nam	Executive Officer (resigned on 17 April 2025)

THE BOARD OF EXECUTIVE OFFICERS' STATEMENT OF RESPONSIBILITY

The Board of Executive Officers of the Company is responsible for preparing the consolidated financial statements, which give a true and fair view of the consolidated financial position of the Company as at 31 December 2025, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting. In preparing these consolidated financial statements, the Board of Executive Officers is required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgments and estimates that are reasonable and prudent;
- State whether applicable accounting principles have been followed, subject to any material departures disclosed and explained in the consolidated financial statements;
- Prepare the consolidated financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business; and
- Design and implement an effective internal control system for the purpose of properly preparing and presenting the consolidated financial statements so as to minimize errors and frauds.

STATEMENT OF THE BOARD OF EXECUTIVE OFFICERS (Continued)

The Board of Executive Officers is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the consolidated financial position of the Company and that the consolidated financial statements comply with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting. The Board of Executive Officers is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

The Board of Executive Officers confirms that the Company has complied with the above requirements in preparing these consolidated financial statements.

For and on behalf of the Board of Executive Officers,

Nguyen Thi Phuong Loan
Chief Executive Officer

28 March 2026

INDEPENDENT AUDITORS' REPORT

To: **Shareholders**
The Boards of Directors and Executive Officers
Sunshine Group Joint Stock Company

We have audited the accompanying consolidated financial statements of Sunshine Group Joint Stock Company (the "Company") and its subsidiaries, prepared on 28 March 2026 as set out from page 05 to page 81 which comprise the consolidated balance sheet as at 31 December 2025, the consolidated statement of income, and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Board of Executive Officers' Responsibility for the Consolidated Financial Statements

The Board of Executive Officers is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting and for such internal control as the Board of Executive Officers determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Executive Officers, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

INDEPENDENT AUDITORS' REPORT (Continued)

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as at 31 December 2025, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting.

Emphasis of Matter

As presented in Note 10 and Note 11 of Notes to the consolidated financial statements, the Company has extended the terms of several agreements with certain counterparties, including loan agreements, investment cooperation contracts, and the corresponding interest collection periods in accordance with the progress of the project implementation and the progress of relevant procedures by these parties.

Our opinion is not modified in respect of this matter.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

These notes are an integral part of and should be read in conjunction with the accompanying consolidated financial statements

1. GENERAL INFORMATION

Structure of ownership

Sunshine Group Joint Stock Company (formerly known as Real Tech Group Joint Stock Company, renamed as Sunshine Group Joint Stock Company since 04 May 2024) is a joint stock company established in Vietnam under the Enterprise Registration Certificate No. 0106771556 issued by Hanoi Authority for Planning and Investment on 09 February 2015 and its 14th amendment dated 01 October 2025.

The Company's shares have been approved to be listed on Hanoi Stock Exchange according to Decision No. 499/QĐ-SGDHN dated 24 September 2021 (stock symbol: "KSF").

The Company is headquartered on 12th Floor, Sunshine Center Building, No. 16 Pham Hung, Tu Liem Ward, Hanoi, Vietnam.

The number of employees of the Company and its subsidiaries as at 31 December 2025 was 1,469 (as at 31 December 2024: 1,073).

Operating industry and principal activities

The business activities of the Company and its subsidiaries include construction activities, real estate business, securities trading, and other trade and services.

The principal activities of the Company and its subsidiaries include:

- Investment and construction of apartments for sale, real estate business, management and exploitation of assets after investment;
- Building houses of all kinds, constructing civil engineering works;
- Securities brokerage, securities trading, securities investment consulting and securities underwriting;
- Information technology and other computer-related services;
- Building operation services, landscape maintenance and care;
- Retail in supermarkets and convenience stores; and
- Educational services.

Normal production and business cycle

For the real estate activities, the production and business cycle is usually based on the construction time of the works/project.

For the remaining business activities, the normal production and business cycle is carried out for a year not exceeding 12 months.

Characteristics of the business activities in the fiscal year which have impacts on the consolidated financial statements

Share issuance for the public tender offer of shares of Sunshine Homes Development Joint Stock Company ("Sunshine Homes")

Pursuant to Resolution No. 01/2025/SSG/NQ-DHDCD of the 2025 Annual General Meeting of Shareholders dated 26 April 2025 and Resolution No. 19/2025/SSG/NQ-HDQT of the Board of Directors dated 26 April 2025, the Company issued additional shares to conduct a public tender offer for all ordinary shares held by the shareholders of Sunshine Homes through a share-swap arrangement at an exchange ratio of 1:1.6.

According to Report No. 377/2025/SSG-BC dated 25 September 2025 of the Company's Chief Executive Officer on the results of the share issuance for the public tender offer, and Official Letter No. 5712/UBCK-QLCB dated 29 September 2025 of the State Securities Commission of Vietnam acknowledging their receipt of such Report, a total of 599,787,308 KSF shares were issued, representing 99.96% of the total shares issued by Sunshine Homes. Accordingly, Sunshine Homes became a subsidiary of the Company from 29 September 2025 with an ownership interest and voting rights of 99.96%. The cost of the business combination was determined based on the number of shares issued at a par value of VND 10,000 per share.

Acquisition of Sunshine Tay Ho Joint Stock Company ("Sunshine Tay Ho")

According to Share Transfer Contracts No. 01/2025/HDCN-DHT, No. 02/2025/HDCN-VHY and No. 03/2025/HDCN-BDSDHT all dated 30 June 2025 between the Company (as the transferee) and Mr. Dinh Huu That, Ms. Vu Hong Yen and Dai Hung Thinh Real Estate Investment Joint Stock Company (as the respective transferors), the parties agreed that the Company would acquire a total of 54.5% of the shares in Sunshine Tay Ho. On 30 June 2025, the Company completed the acquisition of 54.5% of the shares in Sunshine Tay Ho for a total transfer consideration of VND 545,000,000,000.

Accordingly, Sunshine Tay Ho became a direct subsidiary of the Company from 30 June 2025, with an ownership interest and voting rights of 54.5%.

Acquisition of shares in DIA Investment Joint Stock Company ("DIA")

Pursuant to Share Transfer Agreement No. 01/2025/HDCNCP/TLV-SSG dated 27 August 2025 between the Company (as the transferee) and Thien Long Viet Investment Company Limited (as the transferor), on 27 August 2025 the Company completed the acquisition of 51.11% of the shares in DIA for a total transfer consideration of VND 1,150,000,000,000.

Accordingly, DIA became a direct subsidiary of the Company from 27 August 2025, with a direct ownership interest and voting rights of 51.11%.

- (i) According to the Capital Contribution Transfer Deposit Agreement No. 0706/2021/HDDC and its appendices (the most recent being Appendix No. 03 dated 30 April 2024) between the Company (as the transferee) and Smart Investment Development Joint Stock Company (as the transferor), the parties agreed that the Company would acquire 100% of the charter capital of Dynamic Innovation Company Limited ("Dynamic") for a total transfer consideration of VND 3,763,000,000,000.

On 27 December 2025, the Company completed the acquisition of an additional 14.2% equity interest in Dynamic for a total consideration of VND 534,200,000,000 pursuant to the Capital Contribution Transfer Agreement No. 01/2025/HDCN/DIC/SMART-SSG with Smart Investment Development Joint Stock Company. Accordingly, the Company's ownership interest and voting rights in Dynamic increased to 100% as of 27 December 2025 (85.80% as at 31 December 2024).

- (ii) On 12 September 2025, SmartMind Securities Joint Stock Company ("SmartMind") completed the acquisition of 25,000,000 shares of DIA (equivalent to 11.11% of its share capital) from Thien Long Viet Investment Company Limited pursuant to Share Transfer Agreement No. 1209/2025/HDCN/DIA/SMDS-TLV, with a total transfer consideration and acquisition-related costs of VND 250,000,000,000.

On 23 September 2025, Dynamic completed the acquisition of shares in DIA under the following share transfer agreements:

- 14,776,990 shares (equivalent to 6.57% of the share capital) from Thien Long Viet Investment Company Limited pursuant to Share Transfer Agreement No. 02/2025/HDCNCP/TLV-DIC, with a total transfer consideration and acquisition-related costs of VND 147,769,900,000.
- 69,098,010 shares (equivalent to 30.71% of the share capital) from Hung Cuong Trading Business Company Limited pursuant to Share Transfer Agreement No. 01/2025/HDCN/HC-DIC and its appendices, with a total transfer consideration and acquisition-related costs of VND 1,096,669,970,000.

On 27 December 2025, the Company increased its ownership interest and voting rights in Dynamic to 100%. Accordingly, the Company's ownership interest and voting rights in DIA were increased to 98.89% and 99.50%, respectively.

- (iii) As at 23 April 2025, Dynamic completed the acquisition of 43,522,841 shares in SmartMind (equivalent to 43.51% of its share capital) from Ms. Tran Thi Thu Hong, with a total transfer consideration and acquisition-related costs of VND 435,228,410,000. Accordingly, the Company's ownership interest and voting rights in SmartMind increased from 50.99% to 88.63% and 94.5%, respectively, from that date.

On 27 December 2025, the Company's ownership interest and voting rights in Dynamic increased to 100%, thereby increasing the Company's effective ownership interest in SmartMind from 88.63% to 94.5% from that date.

- (iv) All shares of Sunshine Sky Villa Joint Stock Company ("Sky Villa") held by the Company are pledged as collateral for a loan obtained by Sky Villa from Ho Chi Minh City Development Joint Stock Commercial Bank – Ho Guom Branch – Thu Do Transaction Office.

- (v) On 31 December 2025, DIA completed the acquisition of 99.8% of the shares of Thai Minh Land Investment Joint Stock Company ("Thai Minh Land") pursuant to Share Transfer Agreements No. 01/2025/HDCN/DIA-LBL and No. 02/2025/HDCN/DIA-LBL with Long Bien Land Company Limited. The number of shares transferred was 34,680,000 shares (equivalent to 51% of the share capital) with a total transfer consideration and acquisition-related costs of VND 728,280,000,000, and 33,184,000 shares (equivalent to 48.80% of the share capital) with a total transfer consideration and acquisition-related costs of VND 696,864,000,000, respectively. Accordingly, Thai Minh Land became an indirect subsidiary of the Company from 31 December 2025, with ownership interest and voting rights of 98.69% and 99.80%, respectively.

- (vi) On 12 November 2025, Sky Villa completed the acquisition of 51% of the shares of Wonderland Investment Joint Stock Company ("Wonderland") pursuant to Share Transfer Agreement No. 1211/2025/HDCNCP/SKV-SSAM with Sunshine AM Joint Stock Company for the transfer of 10,789,474 shares (equivalent to 43.16% of the share capital) with a total transfer consideration and acquisition-related costs of VND 1,078,947,400,000, and Share Transfer Agreement No. 1212/2025/HDCNCP/SKV-DVT with Mr. Do Van Trung for the transfer of 1,960,526 shares (equivalent to 7.84% of the share capital) with a total transfer consideration and acquisition-related costs of VND 196,052,600,000. Accordingly, Wonderland became an indirect subsidiary of the Company from 12 November 2025, with ownership interest and voting rights of 46.92% and 51.00%, respectively.

(*) The ownership interests and voting rights of certain investments differ as the Company holds these investments both directly and indirectly through its subsidiaries.

Disclosure of information comparability in the separate financial statements

The comparative figures are the figures of the Company's audited separate financial statements for the year ended 31 December 2024.

2. ACCOUNTING CONVENTION AND FINANCIAL YEAR

Accounting convention

The accompanying separate financial statements, expressed in Vietnam Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to separate financial reporting.

The accompanying separate financial statements are not intended to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

The Company also prepares the consolidated financial statements including the separate financial statements of the Company and the financial statements of subsidiaries. These separate financial statements should be read in conjunction with the Company's consolidated financial statements in order to obtain thorough understanding of the financial position of the whole Company.

Financial year

The Company's financial year begins on 01 January and ends on 31 December.

3. NEW ACCOUNTING GUIDANCE IN ISSUE

On 27 October 2025, the Ministry of Finance issued Circular No. 99/2025/TT-BTC ("Circular 99") guiding the application of accounting regime for enterprises. Circular 99 is effective from 1 January 2026 and applies for financial years beginning on or after 1 January 2026. This Circular will supersede the following regulations:

- Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance ("Circular 200") providing guidance on the corporate accounting regime (except for contents relating to accounting guidance for the equitization of State-owned enterprises),
- Circular No. 75/2015/TT-BTC dated 18 May 2015 of the Ministry of Finance on amendments to Article 128 of Circular 200,
- Circular No. 53/2016/TT-BTC dated 21 March 2016 of the Ministry of Finance amending and adding some articles of Circular 200, and
- Circular No. 195/2012/TT-BTC dated 15 November 2012 of the Ministry of Finance providing accounting guidance for investors.

The Board of Directors is considering the extent of impact of the adoption of Circular 99 on the Company's financial statements for future accounting periods, beginning on or after 1 January 2026.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies, which have been adopted by the Company in the preparation of these consolidated financial statements, are as follows:

Estimates

The preparation of consolidated financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the financial year. Although these accounting estimates are based on the management's best knowledge, actual results may differ from those estimates.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and enterprises controlled by the Company (its subsidiaries) for the year ended 31 December each year. Control is achieved where the Company has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used in line with those used by the Company.

Intragroup transactions and balances are eliminated in full on consolidation.

Non-controlling interests consist of the amount of those non-controlling interests at the date of the original business combination (see below) and the non-controlling interests' share of changes in equity since the date of the combination. Losses in subsidiaries are respectively attributed to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Business combinations

On acquisition, the assets and liabilities and contingent liabilities of a subsidiary are measured at their fair values at the date of acquisition. Any excess of the cost of acquisition over the fair values of the identifiable net assets acquired is recognised as goodwill. Any deficiency of the cost of acquisition below the fair values of the identifiable net assets acquired is credited to profit and loss in the period of acquisition.

The non-controlling interests are initially measured at the non-controlling shareholders' proportion of the net fair value of the assets, liabilities and contingent liabilities recognised.

Business combinations under common control

A business combination under common control is a business combination in which all combining entities are ultimately controlled by the same party or parties both before and after the combination, and such control is not temporary. An entity may be controlled by an individual or by a group of individuals under a contractual arrangement.

A transaction that is a business combination under common control is accounted for as follows:

- Assets and liabilities of the combining entities are recognised at their carrying amounts (predecessor carrying amounts) at the combination date;
- No goodwill is recognised arising from the business combination;
- The consolidated income statement Represents the results of operations of the combining entities from the combination date;
- Any difference between the combination consideration and the carrying amount of the acquiree's net assets is recognised directly in equity.

Net assets are adjusted for unrealised profits (if any) at the combination date under common control.

Subsequent to the combination, if the Company disposes of and/or reduces its ownership interest in the investee, the difference between the combination consideration and the net assets previously recognised in equity shall be allocated progressively and recognised in Retained earnings in the consolidated balance sheet.

Investments in associates

An associate is an entity over which the Company has significant influence and that is neither a subsidiary nor an interest in joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control or joint control over those policies.

The results, assets and liabilities of associates are incorporated in the consolidated financial statements using the equity method of accounting. Interests in associates are carried in the balance sheet at cost as adjusted by post-acquisition changes in the Company's share of the net assets of the associate. Losses of an associate in excess of the Company's interest in that associate (which includes any long-term interests that, in substance, form part of the Company's net investment in the associate) are not recognised.

Where a group entity transacts with an associate of the Company, unrealised profits and losses are eliminated to the extent of the Company's interest in the relevant associate.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, bank demand deposits and short-term, highly liquid investments (original term not exceeding 3 months) that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Financial investments

Trading securities

Trading securities are those the Company holds for trading purpose. Trading securities are recognised from the date the Company and its subsidiaries obtains the ownership of those securities and initially measured at the fair value of payments made at the transaction date plus directly attributable transaction costs.

In subsequent year, investments in trading securities are measured at cost less provision for impairment of such investments.

Provision for impairment of investments in trading securities is made in accordance with prevailing accounting regulations.

Held-to-maturity investments

Held-to-maturity investments comprise investments that the Company and its subsidiaries has the positive intent or ability to hold to maturity. Held-to-maturity investments include term deposits, bonds.

Held-to-maturity investments are recognised on a trade date basis and are initially measured at acquisition price plus directly attributable transaction costs. Post-acquisition interest income from held-to-maturity investments is recognised in the consolidated income statement on accrual basis. Pre-acquisition interest is deducted from the cost of such investments at the acquisition date.

Held-to-maturity investments are measured at cost less for impairment of such investments.

Provision for impairment of held-to-maturity investments is made in accordance with prevailing accounting regulations.

Loan receivables

Loan receivables are measured at cost less provision for doubtful debts. Provision for doubtful debts relating to loan receivables is made in accordance with prevailing accounting regulations.

Equity investments in other entities

Equity investments in other entities represent the Company's investments in ordinary shares of the entities over which the Company has no control, joint control, or significant influence.

Equity investments in other entities are carried at cost less provision for impairment. Provisions for impairment of equity investments in other entities are made when there is strong evidence that there is a decrease in the value of these investments at the consolidated balance sheet date in accordance with current regulations.

Business Cooperation Contract ("BCC")

A Business Cooperation Contract (BCC) is an agreement between a company/subsidiary and partners through a contract to jointly carry out economic activities without forming an independent legal entity. These activities are jointly controlled by the parties as agreed upon in the BCC, or controlled by one of the parties. BCCs between the company and its subsidiaries are conducted in the form of profit-sharing after tax ("PBT"). The profit-sharing BCC stipulates that participating parties receive a share of profits if the BCC's operations are profitable, and may bear losses or receive a fixed share of profits regardless of the BCC's business performance.

Receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

Provision for doubtful debts is made for receivables that are overdue for six months or more, or when the debtor is in dissolution, in bankruptcy, or is experiencing similar difficulties and so may be unable to repay the debt.

Inventories

Inventory primarily comprises work-in-progress construction costs, finished real estate products of the project, goods used for promotional purposes or as gifts to customers acquiring real estate in the projects, tools and equipment, raw materials, finished goods, and other goods serving the business of computer-related services.

Details of work-in-progress construction costs and finished real estate products in the projects are as follows:

No	Project name	Location	Investor
1	Sunshine Sky City Project	Plots B1 and B4, Tan Kieng ward, Ho Chi Minh City	Dynamic Innovation Investment JSC
2	Sunshine Golden River Project	Land lot CT02A, Nam Thang Long Area - Phase II, Phu Thuong Ward, Hanoi	Sunshine Sky Villa JSC
3	Sunshine Center Project	No.16 Pham Hung Street, Tu Liem ward, Hanoi	Sunshine Homes Development JSC
4	Sunshine City Mixed-use Commercial Service Project	San Golf, Da Ton, Thien Loc Commune, Hanoi	Sunshine Homes Development JSC
5	Sunshine City Project	Land lot I.A2.3, Nam Thang Long Area - Phase II, Phu Thuong Ward, Hanoi City	Xuan Dinh Construction JSC
6	Sunshine Garden Project	Plot H.1-HH1, Vinh Tuy Ward, Hanoi	Sao Anh Duong JSC
7	Sunshine Capital Tay Thang Long Project	Plot TT6-2 within the Tay Tuu Urban Functional Area, Tay Tuu Ward, Hanoi	Xuan La Construction Investment JSC
8	Sunshine Green Iconic Project	Land lot CT7 under the technical infrastructure construction project for residential housing for sale, located in the southwest area of Road No. 70, Hoai Duc Commune, Hanoi	Long Bien Urban Development JSC
9	Noble Palace Tay Thang Long Project (including Sunshine Garden Capital Project - Phase 2)	O Dien Commune, Hanoi	DIA Investment JSC
10	Noble Palace Garden Project (including Phoenix Garden Project - Phase 2)	O Dien Commune, Hanoi	DIA Investment JSC
11	Noble Palace Tay Ho - Golf Mansion	Land lots TT 01 to TT 19 under Nam Thang Long Urban Area Project, Nam Thang Long, Dong Ngac Ward and Phu Thong Ward, Hanoi	Sunshine Tay Ho JSC
12	Noble Palace Tay Ho - Boutique Mansion	Land lots T20-TT37 under Nam Thang Long Urban Area Project, Phu Thuong Ward, Hanoi	Sunshine Tay Ho JSC

Inventory is accounted for using the perpetual inventory method and is determined on the lower of cost and net realisable value. The cost of finished real estate products includes land use fees, land lease fees, land compensation costs, construction costs, interest expenses, direct costs, and related overhead costs incurred during the project construction. The cost of work-in-progress and other finished goods includes direct material costs, direct labor costs, and manufacturing overhead costs, if any, to bring the inventory to its current location and condition. The cost of raw materials, tools, and goods includes the purchase cost and other costs directly related to the purchase of raw materials, tools, and goods. Net realizable value is determined by the estimated selling price minus the estimated costs to complete the product, along with any marketing, sales, and distribution expenses incurred.

The evaluation of necessary provision for inventory obsolescence follows current prevailing accounting regulations which allow provisions to be made for obsolete, damaged, or sub-standard inventories and for those which have costs higher than net realisable values as at the consolidated balance sheet date.

Leasing

All leases at the Company and its subsidiaries are considered operating leases. Leases where substantially all the rewards and risks of ownership of assets remain with the leasing company are accounted for as operating leases.

The Company as lessor

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

The Company as lessee

Leases where substantially all the rewards and risks of ownership of assets remain with the leasing company are accounted for as operating leases. Rentals payable under operating leases are charged to the income statement on a straight-line basis over the term of the relevant lease. Benefits received and receivable as an incentive to enter into an operating lease are also spread on a straight-line basis over the lease term.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation.

The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working condition and location for their intended use.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives as follows:

	Years
Buildings and structures	5 - 50
Machinery, equipment	3 - 15
Motor vehicles	4 - 10
Office equipment	3 - 10

Intangible assets and amortisation

Intangible fixed assets representing land use rights, software programs and other assets are stated at cost less accumulated amortisation. Intangible assets are amortized on a straight-line basis over their estimated useful lives, specifically as follows:

	Years
Software programs	03 - 15
Industrial property rights	27
Patents	10

Investment properties and depreciation

Investment properties include buildings, structures, and machinery and equipment of projects held by the Company for the purpose of generating rental income.

The buildings and structures for rent include the following detailed structures:

No.	Project	Location	Owning company
1.	Investment property under Sunshine Sky City Project	Land lot B1, Tan My Ward, Ho Chi Minh City	Dynamic Innovation Company Limited; Unicloud Technology Investment JSC
2.	Investment property under Sunshine Golden River Project	Land lot CT02A, Nam Thang Long Urban Area – Phase II, Phu Thuong Ward, Hanoi	Sunshine Sky Villa Joint Stock Company
3.	Investment property under Sunshine Riverside Project	Land lot CT03, Nam Thang Long Urban Area – Phase II, Phu Thuong Ward, Hanoi	Sunshine Group Joint Stock Company
4.	Investment property under King Palace Commercial Center	No. 108 Nguyen Trai Street, Khuong Dinh Ward, Hanoi	Unicloud Technology Investment Joint Stock Company
5.	Villas and furniture under Sunshine Homes development project at Vuon Dao residential area	Plot 23, Lot D3A.3, Area of 18.6 ha, Tay Ho Ward, Hanoi	Sunshine Homes Development Joint Stock Company
6.	Investment property under Sunshine Center Project	No. 16 Pham Hung Street, Tu Liem Ward, Hanoi	Sunshine Homes Development Joint Stock Company
7.	Investment property under Sunshine City Project	Land lot I.A.23, Nam Thang Long Urban Area – Phase II, Phu Thuong Ward, Hanoi	Xuan Dinh Construction Investment Joint Stock Company
8.	Investment property under Sunshine Garden Project	Land lot I.1-HH1, Vinh Tuy Ward, Hanoi	Sao Anh Duong Joint Stock Company
9.	Investment property under Sunshine Palace Project	Land lot C2/CN3, Vinh Tuy Ward, Hanoi	Sao Anh Duong Joint Stock Company
10.	Investment property under Sunshine Green Iconic Project	Land lot CT7 under the technical infrastructure construction project for planning of road corridors serving land auction work at Phuc Loi Ward, Hanoi	Long Bien Construction Investment Joint Stock Company

Investment properties for lease are presented at cost less accumulated depreciation. The cost of self-built investment properties is the finalized value of the construction or directly related costs and overheads allocated based on the corresponding area of the investment property.

Expenses related to investment properties incurred after initial recognition are accounted for in the remaining value of the investment property when the Company is able to obtain future economic benefits exceeding the initially assessed level of activity of that investment property.

Investment properties for lease are depreciated using the straight-line method based on their estimated useful life. Specifically as follows:

	Years
Building, structures	35 - 45
Machinery, equipment	10

Construction in progress

Properties in the course of construction for production, rental or administrative purposes, or for other purposes, are carried at cost; the cost includes any costs that are necessary to form the assets in accordance with the Company's accounting policy. Depreciation/ value recovery of these assets, on the same basis as other assets, commences when the assets are ready for their intended use.

Prepayments

Prepayments are expenses which have already been paid but relate to results of operations of multiple accounting years, including sales person's commissions, customers' borrowing cost support, capital withdrawal commitment expenses and other prepayments.

Sales person's commissions, expenses of customers' borrowing cost support incurred before the handover of real estates to customers are expected to provide future economic benefits to the Company and its subsidiaries and are allocated to the consolidated income statement when the relevant revenue from real estate transfer is recognized.

Capital withdrawal commitment costs arise when the Company and its subsidiaries borrows capital from banks. These expenditures are allocated to the consolidated income statement over the loan term.

Bond issuance

The company and its subsidiaries issue bonds mainly for long-term borrowing purposes to increase operating capital and implement investment programs and projects, with the issue price equal to the bond's par value.

Bond issuance expenses are amortized over the bond term on a straight-line basis. At the time of initial recognition, issuance expenses of bonds are deducted from the principal of the bonds. Periodically, bond issuance costs are amortized by recording an increase in the value of the principal and recording it into financial expenses or capitalization in accordance with the recognition of interest payable on bonds.

Revenue recognition

Revenue from the sales of real estate

Revenue from the transfer of real estate and investment properties under Sunshine Riverside Project, Sunshine Sky City Project and Sunshine Golden River Project is recognised when all five (5) following conditions are satisfied:

- The real estate has been completed and transferred to the buyer, the Company has transferred to the buyer the significant risks and rewards of ownership of the real estate;
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the real estate sold;
- The amount of revenue can be measured reliably;
- The economic benefits associated with the transaction flowed or will flow to the Company; and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

For the real estate properties which the Company and its subsidiaries are the investors; customers have the right to complete the interior of the property, and the Company carries out the interior completion according to the design, style, and requirements of the customers, the Company shall recognize revenue upon completion and delivery of the unfinished part of the property to the customer, provided that all five conditions mentioned above are met.

Revenue from sales of goods

Revenue from the sale of goods is recognised when all five (5) following conditions are satisfied:

- (a) The Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- (b) The Company retains neither continuing managerial involvement to the degree usually associated with; ownership nor effective control over the goods sold;
- (c) The amount of revenue can be measured reliably;
- (d) It is probable that the economic benefits associated with the transaction will flow to the Company; and
- (e) The costs incurred or to be incurred regarding the transaction can be measured reliably.

Revenue for services rendered

Revenue of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. In the event that transaction involving the rendering of services is attributable to several years, revenue is recognised in each year by reference to the percentage of completion of the transaction at the consolidated balance sheet date of that year. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- (a) The amount of revenue can be measured reliably;
- (b) It is probable that the economic benefits associated with the transaction will flow to the Company;
- (c) The percentage of completion of the transaction at the consolidated balance sheet date can be measured reliably; and
- (d) The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Revenue from securities trading activities

Revenue from securities business includes revenue from securities brokerage activities; securities depository; investment advice; underwriting, securities issuance agency and other activities.

Securities brokerage activities for investors and securities depository activities

Revenue from securities brokerage and securities depository activities is recognized in the consolidated income statement when all four (4) of the following conditions are satisfied:

- (a) The amount of revenue can be measured reliably;
- (b) It is probable that the economic benefits associated with the transaction will flow from Securities brokerage, depository services to the Company;
- (c) The percentage of completion of the transaction at the consolidated balance sheet date can be measured reliably; and
- (d) The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Other revenue

Other revenue is recognized in the consolidated income statement on an accrual basis.

Revenue related to multiple accounting periods is recognized based on a schedule or amortized on a straight-line basis over the term of the service. Unallocated value is recognized as unearned revenue in the consolidated financial statements.

Financial income

Gain from the transfer of financial investments is recognized when the Company completes the transaction and is measured at the difference between the transfer price and the carrying amount of the investments.

Interest on deposits and loans is recognized on an accrual basis, which is determined on the balance of the deposit and loan accounts and the applicable interest rate.

Dividend income from investments is recognised when the Company's right to receive payment has been established.

Unearned revenue

Unearned revenue includes depository fee, collateral management fee, bond holders' representation fee received in advance from customers for many accounting periods, and building management service fee under Sunshine Riverside project and Block S1 of Sunshine Sky City project.

Depository fees and collateral management fees are amortized to the consolidated income statement using the straight-line method over the prior payment term.

Fees for building management services are recognized as unearned revenue at the time of apartment handover to customers and periodically amortized to the consolidated income statement according to relevant agreement terms.

Sales deductions

Sales deductions include trade discounts.

Sales deductions incurred in the same year of the related revenue from sales of products, goods and rendering of services are recorded as a deduction from the revenue of that year/period. In case that sales deductions for sales of products, goods or rendering of services sold in the year incurred after the balance sheet date but before the issuance of the financial statements, the Company recorded as revenue deductions for the year.

Borrowing costs

Borrowing costs are recognised in the consolidated income statement in the year when incurred unless they are capitalised in accordance with Vietnamese Accounting Standard No. 16 "Borrowing costs". Accordingly, borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial year of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the cost of those assets. For specific borrowings for the purpose of construction of fixed assets and investment properties, borrowing costs are capitalised even when the construction period is under 12 months.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the consolidated income statement because it excludes items of income or expense that are taxable or deductible in other years (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

Deferred tax is recognised on significant differences between carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using balance sheet liability method. Deferred tax liabilities are generally recognised for all temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the year when the liability is settled or the asset realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and the Company intends to settle its current tax assets and liabilities on a net basis.

The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

5. BUSINESS COMBINATION UNDER COMMON CONTROL

a) Business combination Sunshine Homes Joint Stock Company ("Sunshine Homes")

As presented in Note 01, on 29 September 2025, Sunshine Homes has become a subsidiary of the Company with the proportion of ownership interest and voting right of 99.96%.

The carrying amount of assets, liabilities, and net assets of Sunshine Homes Joint Stock Company at the acquisition date is presented as follows:

	Book value as at acquisition date VND
ASSETS	
Cash	242,791,281,225
Short-term financial investments	7,733,295,154
Short-term receivables	7,263,535,411,761
Inventories	446,058,323,403
Other short-term assets	78,179,747,239
Long-term receivables	1,100,000,000,000
Fixed assets	191,408,582,403
Investment property	793,278,829,219
Long-term assets in progress	127,936,101,404
Long-term financial investments	3,228,089,701,549
Other long-term assets	80,945,806,789
	13,559,957,080,146
LIABILITIES	
Current liabilities	4,992,082,440,420
Long-term liabilities	2,344,493,608,888
	7,336,576,049,308
Non-controlling interests	574,870,000,701
Total net asset at carrying value [a]	5,648,511,030,137
Non-controlling interests [b]	2,002,284,190
Difference between cost of investment and net asset [c]	351,364,334,053
Total cost of investment paid [d] = [a] - [b] + [c]	5,997,873,080,000
Cash flow information from acquisition	
Proceeds from subsidiary	242,791,281,225
Cash outflow for buying subsidiary	-
Net cash used for buying subsidiary	242,791,281,225

b) Business combination of Sunshine Tay Ho Joint Stock Company ("Sunshine Tay Ho")

As presented in Note 01, dated 30 June 2025, Sunshine Tay Ho became a subsidiary of the Company with an ownership stake and voting rights ratio of 54.5%.

The book value of assets, liabilities, and net assets of Sunshine Tay Ho at the date of acquisition is as follows:

	Book value as at acquisition date VND
ASSETS	
Cash	1,836,060,418
Short-term financial investments	1,164,410,275
Short-term receivables	13,028,184,814,857
Inventories	224,922,236,485
Other short-term assets	282,483,418,314
Tangible fixed assets - Cost	61,580,000
Tangible fixed assets - Accumulated depreciation	(570,185)
Intangible fixed assets - Cost	30,000,000
Intangible fixed assets - Accumulated depreciation	(30,000,000)
	13,538,651,950,164
LIABILITIES	
Current liabilities	4,832,948,398,003
Non-current liabilities	8,489,046,840,250
	13,321,995,238,253
Total net asset at carrying value [a]	216,656,711,911
Non-controlling interests [b]	96,578,803,920
Difference between cost of investment and net asset [c]	426,922,092,009
Total cost of investment paid [d] = [a] - [b] + [c]	545,000,000,000
Cash flow information from acquisition	
Proceeds from subsidiary	1,836,060,418
Cash outflow for buying subsidiary	(545,000,000,000)
Net cash used for buying subsidiary	(543,163,939,582)

c) Business combination of DIA Joint Stock Company ("DIA")

As presented in Note No. 01, dated 27 August 2025, DIA became a subsidiary of the Company with an ownership stake and voting rights ratio of 51.11%.

The book value of DIA's assets, liabilities, and net assets at the date of acquisition is as follows:

	Book value as at acquisition date VND
ASSETS	
Cash	197,083,402,164
Short-term receivables	6,569,189,568,001
Inventories	167,144,863,341
Other short-term assets	4,180,020,005
Long-term receivables	1,013,602
Fixed assets	6,229,125,859
Long-term assets in progress	6,499,941,215,006
Other long-term assets	1,311,374,678
	13,445,080,582,656

	Book value as at acquisition date VND
LIABILITIES	
Current liabilities	4,149,246,616,815
Non-current liabilities	7,004,000,000,000
	11,153,246,616,815
Total net asset at carrying value [a]	2,291,833,965,841
Non-controlling interests [b]	1,120,477,625,900
Difference between cost of investment and net asset [c]	(21,356,339,941)
Total cost of investment paid [d] = [a] - [b] + [c]	1,150,000,000,000
Cash flow information from acquisition	
Proceeds from subsidiary	197,083,402,164
Cash outflow for buying subsidiary	(1,150,000,000,000)
Net cash used for buying subsidiary	(952,916,597,836)

d) Business combination of Wonderland Joint Stock Company ("Wonderland")

As presented in Note No. 01, dated 12 November 2025, Wonderland became a subsidiary of Sky Villa with an ownership stake and voting rights ratio of 51%. Accordingly, Wonderland became an indirect subsidiary of the Company from 12 November 2025, with ownership stakes and voting rights ratios of 46.92% and 51.00%, respectively.

The book value of Wonderland's assets, liabilities, and net assets at the date of acquisition is as follows:

	Book value as at acquisition date VND
ASSETS	
Cash	694,709,205,414
Short-term financial investments	1,000,000,000,000
Short-term receivables	5,938,806,947,583
Other short-term assets	67,269,823,581
Long-term assets in progress	9,445,022,059,361
	17,145,808,035,939
LIABILITIES	
Current liabilities	8,297,277,679,250
Non-current liabilities	7,154,899,540,276
	15,452,177,219,526
Total net asset at carrying value [a]	1,693,630,816,413
Non-controlling interests [b]	898,979,237,352
Difference between cost of investment and net asset [c]	480,348,420,939
Total cost of investment paid [d] = [a] - [b] + [c]	1,275,000,000,000
Cash flow information from acquisition	
Proceeds from subsidiary	694,709,205,414
Cash outflow for buying subsidiary	(1,275,000,000,000)
Net cash used for buying subsidiary	(580,290,794,586)

e) Business combination of Thai Minh Land Joint Stock Company ("Thai Minh Land")

As presented in Note No. 01, dated December 31, 2025, Thai Minh Land became a subsidiary of DIA with an ownership stake and voting rights ratio of 99.8%. Accordingly, Thai Minh Land became an indirect subsidiary of the Company from December 31, 2025, with ownership stakes and voting rights ratios of 98.69% and 99.80%, respectively.

The book value of assets, liabilities, and net assets of Thai Minh Land at the date of acquisition is as follows:

	Book value as at acquisition date VND
ASSETS	
Cash	4,675,634,661
Short-term receivables	5,472,587,579,203
Other short-term assets	111,088,285,134
Long-term receivables	300,000,000
Long-term assets in progress	2,352,459,332,508
Other long-term assets	20,912,728
	7,941,131,744,234
LIABILITIES	
Current liabilities	5,748,066,231,755
Non-current liabilities	1,501,203,316,780
	7,249,269,548,535
Total net asset at carrying value [a]	691,862,195,699
Non-controlling interests [b]	9,058,134,940
Difference between cost of investment and net asset [c]	742,339,939,241
Total cost of investment paid [d] = [a] - [b] + [c]	1,425,144,000,000
Cash flow information from acquisition	
Proceeds from subsidiary	4,675,634,661
Cash outflow for buying subsidiary	(1,425,144,000,000)
Net cash used for buying subsidiary	(1,420,468,365,339)

6. CASH AND CASH EQUIVALENTS

(vi) Represents the amount of advance payments to Thu Duc Infrastructure Development Investment Joint Stock Company related to Real Estate Sale Contracts at the Low-Rise Housing Construction Investment Project for sale at land plots designated A4/TT1 in planning zone C12 and land plot designated A7/TT2 in planning zone C13, Viet Hung ward, Phuc Dong ward, Long Bien district, Hanoi.

10. LOAN RECEIVABLES

	Closing balance VND	Opening balance VND
a. Short-term loan receivables		
Loans to business partners and individuals (i)	14,340,565,860,463	3,059,473,783,328
Short-term loan receivables from related parties (Details in Note 42)	5,523,625,631,844	762,390,000,000
	19,864,211,492,307	3,821,863,783,328
b. Long-term loan receivables		
Loans to business partners and individuals (ii)	1,100,000,000,000	-
Long-term loan receivables from related parties (Details in Note 42)	239,620,000,000	19,300,000,000
	1,339,620,000,000	19,300,000,000
Total	21,203,831,492,307	3,841,163,783,328

(i) Loan receivables reflect unsecured loans to businesses and individuals with a loan term of 12 months from the date of disbursement, some of which are extended until the end of 2026 according to signed contract addendums. The loan interest rate during the period ranges from 4%/year to 12.5%/year (as of December 31, 2024: 3%/year to 15.5%/year). Borrowers are free to use the loan in accordance with the law. Interest is paid together with the principal at maturity.

(ii) Represent unsecured loans of Xuan Dinh Construction Investment Joint Stock Company – a subsidiary of the Company – to DAT Construction Investment Joint Stock Company under Contract No. 01/HDDT/XD-DAT dated 24 March 2021 and Appendix No.01, Appendix No.02, Appendix No.03 on amending the loan interest rate with a loan limit of VND 3,300,000,000,000, are divided into three groups, each with credit limits of VND 1,000,000,000,000; VND 1,100,000,000,000; and VND 1,200,000,000,000, with maturities on 29 March 2026; 07 April 2027; and 23 April 2026, respectively. The loan interest rate during the term is 17.5%/annum and is adjusted to 15%/annum from 01 July 2023. On 06 March 2024, the two parties signed Appendix No. 03, stipulating that the loan interest rate is the sum of 4.8% and the average of the highest savings interest rate for individual customers in Vietnamese Dong, interest paid in arrears/interest paid at the end of the term, 12-month term (or equivalent) as announced at reference banks. The loan is for the purpose agreed by the parties with the loan term specified for each loan group but not exceeding 5 years from the date of disbursement of the first loan of the loan group. The principal is paid in advance or at the maturity date of the loan group; or is offset against the obligation to exercise the right to purchase shares of DAT Construction Investment Joint Stock Company or the right to purchase all capital contributions to Big Gain Investment Company Limited of DAT Construction Investment Joint Stock Company. According to the loan term extension agreements with DAT Construction Investment Joint Stock Company, the loan term of Group I is extended to 29 March 2026, while that of Group II loans is extended to 7 April 2027.

By the date of these consolidated financial statements, Xuan Dinh had collected VND 1,000,000,000,000 corresponding to a Group I loan to DAT Construction Investment Joint Stock Company.

As presented in Note 28, all rights to receive shares, and to buy shares and contributed capital by Xuan Dinh Construction Investment Joint Stock Company - a subsidiary of the Company arising from the loan and investment contract with DAT Construction Investment Joint Stock Company are used as collateral for the bonds issued by this subsidiary.

In which:		
Other short-term receivables from related parties (Details in Note 42)	3,106,601,951,792	186,253,353,480

(i) Represents the deposits made by the Company's subsidiaries to other companies and individuals for the transfer of shares or capital contributions.

(ii) Represents the deposit for the purchase of bonds under Contract No. 1610/2025/HĐĐC/TML-KSG between Thai Minh Land Investment Joint Stock Company - a subsidiary of the Company - and KS Group Joint Stock Company ("Deposit Recipient") dated October 16, 2025. The Deposit Recipient agrees to sell to the Company 6,750,787 bonds with a face value of VND 100,000/bond, totaling VND 686,622,545,770, under bond code SHJCH2124002 issued by Sunshine House Business Joint Stock Company on 25 May 2021 and maturing on 25 May 2027. The bonds under the above code are privately issued bonds in VND with asset collateral. The date of transfer of ownership is the date the Company pays the full total value of the aforementioned bonds.

- (iii) The deposit between the Company and A Au Trading Service Corporation under Deposit Agreement No. 31/2025/HDDC/BT347 dated 29 December 2025 is intended to secure the Company's acquisition of certain real estate assets within the Nam Thang Long Urban Area Project, covering a land area of 29,692.7 square meters, for which site clearance has been completed and which has been physically handed over at plots coded BT-03, BT-04 and BT-07.
- (iv) Represents the receivables of Long Bien Construction Investment Joint Stock Company - an indirect subsidiary of the Company - from Sunshine Marina Nha Trang Joint Stock Company for the guarantee of apartment sales in the Sunshine Green Iconic project before the project is eligible for sale, and the receivables between Dynamic Innovation Limited Company - a subsidiary of the Company - and other companies for the money assumed on behalf of individual customers receiving real estate transfers in Towers S1, S2, and S4 of the Sunshine Sky City project, and the accrued late payment interest according to the Debt Acknowledgment and Payment Obligation Confirmation Memoranda.
- (v) Represents the capital contributions under Business Cooperation Agreement No. 01/2025/HĐHT/KITA-DIA dated October 7, 2025 and Appendix No. 01 dated November 14, 2025 with Kita Invest Joint Stock Company for the investment project to build high-rise residential buildings for sale combined with commercial services on land plots CT05 and CT06 in Nam Thang Long Urban Area, Tay Ho District, Hanoi, with a total capital contribution value as of December 31, 2025 of VND 5,812,167,950,339. The contract is valid from the date of signing and remains in effect until the end of the project term. As of December 31, 2025, the parties have contributed the full amount of capital as committed in the investment cooperation agreement.

The parties shall divide the business results according to the method of sharing after-tax profits of the project. The profit sharing ratio for the Company corresponds to the ratio of the value of the business cooperation capital contribution to the total amount of VND 20,000 billion after deducting ½ of the land use fee of the project as approved by the competent state agency, and after deducting the land use fee for which the Company is responsible as stipulated in the appendix. Profits and cooperation funds will be paid on the expiration date of the cooperation agreement.

- (vi) Other long-term receivables from Phat Dat Real Estate Development Joint Stock Company ("Phat Dat") relating to Investment Cooperation Agreement No. 01/HĐHTĐT-E3/2017 signed on 26 December 2017 between Dynamic Innovation Co., Ltd. - a subsidiary of the Company - and Phat Dat for the Sunshine Sky City project (later amended to Investment Cooperation Agreement No. 01/HĐHTĐT-E3/2018 signed on 10 December 2018). Based on this agreement and its amendments (including the extension of the implementation period), with the latest amendment dated 20 November 2024:
 - a. Phat Dat is obligated to make every effort to coordinate, cooperate, and expedite legal procedures to ensure the completion of land use right certificates for lots B2 and B3 of the Cooperation Project no later than 30 June 2026, and to obtain approval for the transfer of lots B2 and B3 of the cooperation project to the Company no later than 30 September 2026.
 - b. If, due to objective factors stemming from procedures by competent State agencies (recognized by both parties as objective and not due to the fault of either party), the parties will negotiate a reasonable extension.
 - c. The Company is obligated to reimburse Phat Dat for expenses incurred related to the Sunshine Sky City cooperation project.
 - d. Profits from the cooperation project will be shared among the parties according to the proportion of their financial contributions as agreed upon in the settlement agreement. For profit-sharing purposes, the Contract Coordination Board has the right to phase the cooperative project and determine the allocation of contributions from each party to each revenue-generating phase of the cooperative project. Profits are provisionally disbursed in phases and settled upon termination of the contract.

- e. After Phat Dat is granted the Land Use Right Certificate for the land, the Company has the right to purchase and Phat Dat has the right to sell 99% of Phat Dat's participating interest in the cooperative contract at a price equivalent to 99% of Phat Dat's agreed contribution value plus a surplus to be agreed upon by the parties.
- f. When the legal conditions are met as stipulated by law, Phat Dat has the right to transfer its cooperative project to another partner, provided that the Company fully repays its contributions plus an agreed-upon interest amount.

12. BAD DEBTS

(i) Represents the cumulative investment and construction costs incurred for towers S2 to S9 of the Sunshine Sky City project. As presented in Notes 27 and 28, Dynamic Innovation Co., Ltd. (a subsidiary of the Company) has mortgaged future assets, property rights, and existing rights and benefits arising from investment, development, exploitation, and sale of products at the Sunshine Sky City Project, specifically Lot B1 (excluding the entire commercial and service area and the already sold commercial area of Tower S1), to secure credit granted by Dynamic Innovation Co., Ltd. and third parties at Kien Long Commercial Joint Stock Bank, and Lot B4 to secure credit granted by third parties at Vietnam Prosperity Commercial Joint Stock Bank.

(ii) Represents the costs related to the project at plot CT01 – Nam Thang Long Urban Area, belonging to the project "Investment in the construction of high-rise residential buildings combined with commercial and service facilities and low-rise residential buildings Sunshine Crystal River (Noble Crystal Tay Ho)". Wonderland Real Estate Joint Stock Company (a subsidiary of the Company) has mortgaged all assets, property rights, and rights and benefits arising from the investment, development, and exploitation of the project to secure a loan from Ho Chi Minh City Development Commercial Bank. Specifically, the collateral includes the costs of implementing the project "High-rise residential buildings combined with commercial and service facilities and low-rise residential buildings Sunshine Crystal River" at plot CT01 – Nam Thang Long Urban Area, phase III, Phu Thung Ward, Tay Ho District, Hanoi City.

(iii) Represents the cumulative construction investment costs of the Noble Palace Tay Thang Long Project. As of the date of these consolidated financial statements, the project has been partially completed and handed over, and construction is currently ongoing. As presented in Notes No. 27 and 28, DIA Investment Joint Stock Company (a subsidiary of the Company) has mortgaged all existing and future rights and benefits arising from the investment, development, exploitation, business management of the project, all construction works, asset items, and property rights that have been formed or will be formed in the future related to the Sunshine Grand Capital Project from Subdivision A - Zone 2 (393 land plots) and Subdivision B - Zone 4 (20 land plots) to secure the Company's credit facilities at Military Commercial Joint Stock Bank - Hai Ba Trung Branch.

(iv) Represents the value of the unfinished basic construction works of the High-Rise Housing Project for sale on land plots B3/CT5 and B4/CT6 in planning area C14, Phuc Dong ward, Long Bien district (commercial name: Noble Crystal Long Bien), for which the Company is the investor. As presented in Notes No. 27 and 28, Thai Minh Land Investment Joint Stock Company (a subsidiary of the Company) has mortgaged the land use rights and existing/future housing of the Project, along with property rights arising from the Project, to secure a loan from Military Commercial Joint Stock Bank.

(v) Represents the value of the private area owned by the investor, including unfinished office space, commercial floor space, and related assets at the Sunshine Center project. As presented in Notes No. 27 and 28, these assets are currently being used as collateral for third-party obligations at Vikki Limited Liability Bank.

During the year, interest expenses which had been capitalized into the cost of construction in progress were as follows:

- (i) Represents capital contributions received from partners under Investment and Business Cooperation Agreements with profit sharing for the real estate component in some specific projects:
- (i.1) Represents of payables arising from investment cooperation capital contributions received from S-mart Trading Services Company Limited, Eco Villas Investment Company Limited, and Duc Tu Real Estate Company Limited, which are prioritized for use in the development of the Noble Crystal Tay Ho high-rise residential project combined with commercial services and the Noble Palace Tay Ho low-rise residential project, located at land plot CT01, Nam Thang Long Urban Area, Phase III, Phu Thuong Ward, Hanoi. These are pursuant to Contract No. 2010/HDHT/WDL-SMART dated 20 October 2023, Contract No. 0611/HDHT/WDL-ECVT dated 06 November 2023, and Contract No. 2010/HDHT/WDL-DT dated 20 October 2023, respectively, each with an amount of VND 667,000,000,000. The investment cooperation interest rate as at 31 December 2025 is 13% per annum (31 December 2024: 13% per annum).
- (i.2) Noble Palace Tay Ho – Golf Mansion, Boutique Mansion projects – the investor is Sunshine Tay Ho, a subsidiary of the Company, receiving capital contributions under business cooperation agreements from partners with a total value of VND 1,532,000,000,000. The contracts have a term of 4 years from the date of receiving the first investment payment with a profit sharing of 8%-9%/year calculated on the value of the contributed capital;
- (i.3) The Sunshine Green Iconic Project - Long Bien Construction Investment Joint Stock Company ("Long Bien") - a subsidiary of the Company must pay Dai Phat Real Estate Investment and Business Company Limited ("Dai Phat") the business cooperation capital according to contract No. 2510/HDHT/LB-DP dated October 25, 2023. Long Bien will repay Dai Phat's contributed capital or the remaining contributed capital based on the reconciliation of debts between the two parties (if any) every 36 months from the date Long Bien receives the cooperation capital from Dai Phat. At the time of repayment as mentioned above, Long Bien guarantees that the profit sharing for Dai Phat, calculated in all cases, will be at least 39% of Dai Phat's capital value;
- (i.4) The Noble Palace Tay Thang Long project – the investor is DIA, a subsidiary of the Company that received capital contributions through business cooperation contracts from partners with a total value of VND 8,497,698,400,000. The contracts have a term of 48 to 60 months from the date of receiving full capital contributions, with benefits ranging from 7% to 16% per year based on the value of the capital contributions;
- (i.5) Represents the investment cooperation contributions received by Wonderland – a subsidiary of the Company that received capital contributions through business cooperation contracts from partners with a total value of VND 3,300,000,000,000 to search for, evaluate, and implement potential business and investment programs and projects (buying/transferring shares/capital contributions in real estate project investor companies). The contract has a term of 2-5 years from the date of receiving full capital contribution with a maximum investment cooperation interest rate of 16%/year calculated on the value of capital contribution;
- (i.6) The Sunshine Sky City project – the investor is Dynamic Innovation - a subsidiary of the Company receiving business cooperation contract capital from partners with a total value of VND 3,415,000,000,000. The contract has a term of 2-5 years from the date of receiving full capital contribution with additional benefits from 8%/year – 14.55%/year calculated on the value of capital contribution. As of December 31, 2025, the parties have contributed the full capital as committed in the investment cooperation contract;
- (i.7) Sky Villa – a subsidiary of the Company – received from Dao Ngoc Trading Company Limited under Business Cooperation Agreement No. 1203/HDHT/SKY-DN dated March 12, 2024 and Appendix No. 01 dated November 25, 2024, with a capital contribution value of VND 776,107,000,000. The parties shall divide the business results according to the profit-sharing

method (after tax) of the Project. The sharing ratio for the contributing party corresponds to the ratio of Capital Contribution Value/Total Cooperation Capital. The recipient of the capital contribution will repay the capital contribution value or the remaining capital contribution value to the contributor every 36 months from the date of receiving the capital contribution and ensure that the profit sharing for the contributor in all cases is not less than 39% of the contributor's capital contribution value, and periodically, every 3 months, deduct a minimum of 2.5% of the profit sharing value based on the capital contribution value.

- (ii) Represents the maintenance fund for handed-over apartments in the Sunshine Riverside Project, Sunshine Sky City Project, Sunshine Golden River Project, Sunshine Center Project, Sunshine City Project, Sunshine Garden Project, Sunshine Palace Project, and Sunshine Green Iconic Project, determined at 2% of the selling price excluding value-added tax and the corresponding interest generated from depositing the maintenance fund. These amounts will be transferred to the Building Management Board.
- (iii) According to the tripartite agreement on the inheritance and offsetting of payment obligations between the Company, Mr. Duong Van Phuc, and S.I Development Joint Stock Company. The parties agreed and acknowledged that, as from the date of execution of the tripartite agreement, all payment obligations in respect of the Company's payable to Mr. Duong Van Phuc in an amount of VND 225,000,000,000 shall be transferred to S.I. Development Joint Stock Company.
- (iv) Represents the amount payable due from the liquidation of contracts with customers purchasing apartments in the Sunshine City, Sunshine Garden, Sunshine Palace, and Sunshine Capital Tay Thang Long projects, corresponding to the amount customers have paid in advance for the apartment purchase contracts.
- (v) Represents the deposit from the parties to Sunshine Tay Ho - a subsidiary of the Company - for the exclusive marketing and distribution brokerage services of Products in the Wonder Villas Project and Project I.B.29. The contract term is 36 months from 15 September 2025. The deposit will be partially refunded corresponding to the number of Products brokered/distributed by the parties to the Company, and the remaining deposit will be fully refunded, corresponding to the distribution price of the unsold/unbrokered Products, upon the expiration of the distribution/brokerage period as stipulated in the contract.

26. LONG-TERM PROVISIONS

Represents the provision for warranty obligations relating to completed and handed-over real estate products under the projects, including Sunshine Center, Sunshine City, Sunshine Green Iconic, Sunshine Palace, Noble Palace Tay Thang Long and Sunshine Garden, which is recognized for a period of five (5) years from the respective handover dates to customers.

SUNSHINE GROUP JOINT STOCK COMPANY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

FORM B 09-DN/HN

(i) Details of the long-term loan from Military Commercial Joint Stock Bank include:

Company	Contract	Closing balance VND	Maturity Interest rate date	Purpose of the loan	Collateral
Sunshine Tay Ho Joint Stock Company	Credit Agreement No. 281275.25.065.3 dated 23 May 2025	3,780,000,000,000	At the interest rates announced for each disbursement	- To reimburse expenses previously paid using borrowed funds under the housing sale and purchase agreement entered into with Nam Thang Long Urban Development Company Limited. - To implement the business plan for 234 low-rise residential units located on land lots TT0-1 to TT-19 within Nam Thang Long Urban Area (the "Wonder Villas Project").	- Rights arising from sale and purchase agreements under Contracts No. 01/SC/H-CO/TT01-TT07/2025 dated 17 March 2025; No. 02/SC/H-CO/TT08-TT19/2025 dated 17 March 2025; No. 03/SC/H-CO/TT14-TT19/2025 dated 17 March 2025, with appendices, amendments and supplements thereto.

Military Commercial Joint Stock Bank ("MB") has partially assigned its ownership rights under the relevant credit facility to Vietnam Modern Bank Limited ("MBV") in accordance with an agreement between the parties, with the outstanding loan balance transferred as at 31 December 2025 amounting to VND 1,400,000,000,000. Accordingly, the credit facility agreements and security agreements entered into between the Company and MB remain in full force and effect in accordance with their agreed terms. MB acts as the authorised representative of MBV to: (i) exercise the rights and perform the obligations of the lender and the secured party under the relevant credit facility and security agreements; and (ii) continue to manage the loan, the related collateral, loan documentation, monitoring of the loan and other matters relating to the transferred portion of the loan. MB also acts as the collection agent for all amounts payable by the Company, including principal, interest, fees and other financial obligations. Accordingly, the Company remains obligated to make full payment of all amounts due to MB.

43. SUPPLEMENTARY DISCLOSURE OF THE CONSOLIDATED CASH FLOW INFORMATION

Supplemental non-cash disclosures

During the year, the Company increased its charter capital through the issuance of additional shares for a public tender offer to acquire all ordinary shares of Sunshine Homes Development Joint Stock Company held by this investee's shareholders. Consequently, changes in accounts payable have been adjusted by the same amount.

Unused amounts held by the enterprise

As at 31 December 2025, Sunshine Sky Villa Joint Stock Company, a subsidiary of the Company, held an amount of VND 36,640,948,295 (as at 31 December 2024: VND 36,500,000,000) relating to maintenance funds which are not permitted to be used in accordance with the Law on Housing 2023.
